Hans Heysen Margaret Preston and Sidney Nolan as well as specific objects such as surreal flowers Aboriginal flowers and war flowers Whether modern or conservative the artists in this study shared an intellectual and emotional passion for flora This was true for men as well as women despite blossoms being a more traditionally feminine subject Through spectacular reproductions of historical and contemporary artworks drawn from collections in Australia the United States Britain and New Zealand Useless Beauty explores how flowers influenced the psyche governed rituals defined identity and brought a psychological dimension to the everyday The peak years for flower centrality in Australian art were between 1920 and 1940 when flowers were known as the apotheosis of useless beauty **Next-Gen Library Redesign** Michael Lascarides,2012
