Mastering Perl Brian D. Foy, 2007-07-16 This is the third in O'Reilly's series of landmark Perl tutorials which started with *Learning Perl* the bestselling introduction that taught you the basics of Perl syntax and *Intermediate Perl* which taught you how to create reusable Perl software. *Mastering Perl* pulls everything together to show you how to bend Perl to your will. It conveys Perl's special models and programming idioms. This book isn't a collection of clever tricks but a way of thinking about Perl programming so you can integrate the real-life problems of debugging, maintenance, configuration and other tasks you encounter as a working programmer. The book explains how to use advanced regular expressions including global matches, lookarounds, readable regexes and regex debugging. Avoid common programming problems with secure programming techniques. Profile and benchmark Perl to find out where to focus your improvements. Wrangle Perl code to make it more presentable and readable. See how Perl keeps track of package variables and how you can use that for some powerful tricks. Define subroutines on the fly and turn the tables on normal procedural programming. Modify and jury-rig modules to fix code without editing the original source. Let your users configure your programs without touching the code. Learn how you can detect errors Perl doesn't report and how to tell users about them. Let your Perl program talk back to you by using `Log4perl`. Store data for later use in another program, a later run of the same program or to send them over a network. Write programs as modules to get the benefit of Perl's distribution and testing tools. Appendices include Brian's Guide to Solving Any Perl Problem to improve your troubleshooting skills as well as suggested reading to continue your Perl education. *Mastering Perl* starts you on your path to becoming the person with the answers and failing that, the person who knows how to find the answers or discover the problem. *Learning Perl, Fourth Edition* Tom Phoenix, 2005 **Learning Perl** Randal L.
