Isizulu Paper1 What Is About:

The Isizulu ,1893 **The Transformative Power of Language** Russell H. Kaschula,H. Ekkehard Wolff,2020-09-10

Language has played a pivotal role in societal transformation in postcolonial Africa towards the creation of globally competitive knowledge societies however so far this role has been under researched and under estimated This volume addresses this gap in the literature by bringing together a team of globally recognised scholars to explore the effect of language on African postcolonial societies and how it has contributed to achieving mental decolonisation A range of languages are explored both imported ex colonial and indigenous African and case studies from different spheres of public discourse are investigated from universities to legal settings Demonstrating that multilingualism is a resource for rather than barrier to successful transformation this book brings the intellectualisation and institutionalisation of African languages to the forefront of development discourse and provides an insightful snap shot of how current academic research public discourse political activism and social community engagement have contributed to societal transformation in South Africa

The Eye of the Storm Jonathan A. Draper,2003-04-01 One hundred years ago Bishop Colenso was excommunicated because of his liberal critical views on the inspiration and authority of the Bible But while in South Africa he worked strenuously for social and political reform 2003 will mark the revocation of his excommunication in a ceremony in South Africa and this book commemorates that event It is divided into sections on African Culture Bible Theology and Social History and contains contribution from English Dutch and South African scholars It will appeal not only to the biblical scholar and Christian theologian but also to anyone interested in the 19th century conflict of theology and reason and the struggle against colonial exploitation

Blood from Your Children Benedict Carton,2000 The young black activists whose rejection of their parents complacency led to the 1976 Soweto uprising and the eventual demise of apartheid are part of a long tradition of generational conflict in South Africa In Blood from Your Children Benedict Carton traces this intense challenge to an extraordinary and pivotal episode a century ago that bitterly divided families along generational lines Facing a series of ecological disasters that crippled agriculture in the 1890s African youths in colonial Natal and Zululand perceived their fathers struggle to meet increased colonial demands as an act of betrayal Young people engaged more frequently in premarital sex while young men sparked widespread gang fights and young women rejected traditional filial and marital obligations In 1906 after the imposition of an onerous head tax on young men this domestic turmoil exploded into an armed uprising known as Bambatha s Rebellion The young men sought revenge by attacking both the African patriarchs whose apparent accomodation they considered traitorous and the colonial troops dispatched to quell the violence After the Natal forces crushed the insurrection some captured rebels faced trial for treason under martial law Often their fathers testified against them While the military intervention eventually caused many more African youths to seek work in the mines thus defusing generational turmoil others moved to industrial centers in the wake of the uprising These young people formed the

vanguard of insurgent political groups that continue to play an important role in South African urban life Through his lively and thorough presentation of the forces at work in Bambatha's Rebellion Benedict Carton brings a fresh understanding to the tragic role of defiant youth and generational rivalry in African resistance

Southern African Linguistics and Applied Language Studies, 2008

Lexicography and Language Variation Philipp Stöckle, Sabine Wahl, 2024-10-07 Lexicography is one of the oldest linguistic sub disciplines and began to compile extensive corpora early on as the basis for dictionary work Surprisingly these corpora and the dictionary articles have not been used very frequently for the study of language variation although most dictionaries do not only contain information about word meanings and grammar but also on regional distribution or style level This volume explores the value of lexicographical data in the study of language variation The contributions focus on different types of dictionaries for different languages as well as on various linguistic research questions ranging from the dictionaries approach to loan words or morphology to practical issues regarding digital frameworks for lexicographic work

Metadata and Semantic Research Emmanouel Garoufallou, Francesca Fallucchi, Ernesto William De Luca, 2019-12-03 This book constitutes the thoroughly refereed proceedings of the 13th International Conference on Metadata and Semantic Research MTSR 2019 held in Rome Italy in October 2019 The 27 full and 15 short papers presented were carefully reviewed and selected from 96 submissions The papers are organized in the following tracks metadata and semantics for digital libraries information retrieval big linked social and open data metadata and semantics for agriculture food and environment digital humanities and digital curation cultural collections and applications european and national projects metadata identifiers and semantics in decentralized applications blockchains and P2P systems

Recognition, Regulation, Revitalisation Theodorus du Plessis, Chrismi-Rinda Loth, 2020-01-01 Recognition Regulation Revitalisation Place Names and Indigenous Languages is a selection of double blind peer reviewed papers from the 5th International Symposium on Place Names that took place 18-20 September 2020 in Clarens South Africa The symposium celebrated 2019 as the International Year of Indigenous Languages as declared by the United Nations

Controlled Natural Language B. Davis, C.M. Keet, A. Wyner, 2018-09-12 Controlled natural languages CNLs are based on natural language and apply restrictions on vocabulary grammar and or semantics They fall broadly into 3 groups Some are designed to improve communication for non native speakers of the respective natural language in others the restrictions are to facilitate the use of computers to analyze texts for example to improve computer aided translation and a third group of CNLs are designed to enable reliable automated reasoning and formal knowledge representation from seemingly natural texts This book presents the 11 papers selected from 14 submitted and delivered at the sixth in the series of workshops on Controlled Natural Language CNL 2018 held in Maynooth Ireland in August 2018 The papers cover a full spectrum of controlled natural languages ranging from human oriented to machine processable controlled languages and from more theoretical results to

interfaces reasoning engines and the real life application of CNLs The book will be of interest to all those working with
 controlled natural language whatever their approach **African Books in Print** ,1993 **South African national
