## **Islam In Asia Facts And Figures Major Muslim Nations:**

**Islam in Asia** Dorothy Kavanaugh, 2014-11-17 Many Westerners associate Islam primarily with the Middle East But in fact four countries have larger Muslim populations than Egypt the largest Arab state Those four countries Indonesia Pakistan India and Bangladesh all lie within Asia This volume presents a wealth of statistical and background information on more than 20 Asian nations with significant Muslim populations The book also provides a valuable overview of the Islamic faith and chronicles the history of Islam's spread into Asia **Islamism and Terrorist Groups in Asia** Michael Radu, 2014-10-21 Many Americans associate Islam and Islamist terrorism exclusively with the greater Middle East Yet the countries with the largest Muslim populations are actually located in Asia where Islamic extremism is also a significant and growing concern This volume provides essential background and surveys recent trends It examines a variety of homegrown Asian terrorist groups detailing their goals methods and links with international organizations such as al Qaeda It also outlines the options available to U S policymakers and to Asian governments as they attempt to stem the tide of militant Islam **Kuwait** Hal Marcovitz, 2014-11-17 Kuwait came to the world's attention in the summer of 1990 when Iraq invaded the tiny emirate Though Kuwait was liberated within eight months it took more than 10 years and 160 billion for the country to recover from the devastation caused by the Iraqi occupation The citizens of Kuwait are among the most prosperous in the world thanks to the country's oil wealth Beneath Kuwait's sands is an estimated 10 percent of the world's oil reserves After the 1991 Gulf War Kuwait's rulers spoke about the possibility of bringing democracy to their country but this has not happened only about one third of Kuwaitis are eligible to vote and the ruling al Sabah family holds great power over the nation's elected assembly However Kuwait remains a key U S ally in the turbulent Middle East Discusses the geography history economy government religion people foreign relations and major cities of Kuwait **Pakistan** Clarissa Akroyd, 2014-11-17 When the British Empire partitioned its Indian colony in 1947 it created two independent states India where most people were Hindus and Pakistan where most were Muslims Violence immediately broke out during which approximately 250 000 people were killed and a million became refugees Since then Pakistan and India have fought several wars and tensions between the two countries during the late 1990s nearly led to another conflict one that might have been devastating as both countries now possess nuclear weapons This book examines the economic and political issues facing Pakistan today It provides up to date information about the country's geography and climate history society important cities and communities and relations with other countries **The Church in Asia** Donald E. Hoke, 1975 **Citizenship Curriculum in Asia and the Pacific** David L. Grossman, Wing On Lee, Kerry J. Kennedy, 2008-08-31 Based on case studies of 11 societies in the world's most dynamic region this book signals a new direction of study at the intersection of citizenship education and the curriculum Following their successful volume *Citizenship Education in Asia and the Pacific Concepts and Issues* published as No 14 in this series the editors widely regarded as leaders in the field in the Asia Pacific region have gone beyond broad citizenship education

frameworks to examine the realities tensions and pressures that influence the formation of the citizenship curriculum Chapter authors from different societies have addressed two fundamental questions 1 how is citizenship education featured in the current curriculum reform agenda in terms of both policy contexts and values and 2 to what extent do the reforms in citizenship education reflect current debates within the society From comparative analysis of these 11 case studies the editors have found a complex picture of curriculum reform that indicates deep tensions between global and local agendas On one hand there is substantial evidence of an increasingly common policy rhetoric in the debates about citizenship education On the other it is evident that this discourse does not necessarily extend to citizenship curriculum which in most places continues to be constructed according to distinctive social political and cultural contexts Whether the focus is on Islamic values in Pakistan an emerging discourse about Chinese democracy a nostalgic conservatism in Australia or a continuing nation building project in Malaysia the cases show that distinctive social values and ideologies construct national citizenship curricula in Asian contexts even in this increasingly globalized era This impressive collection of case studies of a diverse group of societies informs and enriches understanding of the complex relationship between citizenship education and the curriculum both regionally and globally
