Islamic Prayer Times:

The Calculation of Islamic Prayer Times Harun Acaroğlu, 2025* Englische Version This study provides a holistic analysis of Islamic prayer times according to the four sunn schools exploring them from theological astronomical and historical perspectives In the theological analysis the literature of the four schools is studied in detail and all solar phenomena normative in the context of ritual prayer are collected and precisely defined Furthermore the rulings of the four schools concerning the phenomenon of persistent twilight and the absence of prayer times in general are gathered and discussed In this regard several ambiguities related to the genesis of legal rulings provided by early anaf jurists are clarified on the basis of a careful codicological analysis of all works in question The astronomical analysis presents a novel semi automated algorithm tailored to the specific needs of Islamic prayer times In this a particular emphasis is placed on the so called tamk n framework which entails a set of necessary corrections for converting geocentric altitudes to apparent ones The astronomical analysis moreover contains a careful analysis of the correspondence between solar phenomena relevant for Islamic prayer times and solar altitudes To this end an extensive codicological analysis collecting the opinion of more than 400 Islamic astronomers concerning the altitudes associated with the times of the morning and the night prayer is performed together with a discussion of according modern scientific results Finally the usage of the thereby obtained algorithm is exemplified and contextualised through a comparison of the prayer times obtained with the times of the most important German prayer time calendars

Islam Faisal Fahim, 2014-07-27 This book has the pictures of all the positions of performing the prayer There has been an urgent need for a simple and concise guide which teaches the basics of prayer for Muslims This book has been designed for people who don t know how to pray yet or those who aren t sure whether they learned correctly or not In this book you will learn the prayers by reading clear and simple descriptions of what to do The 5 times 5 prayers rewards are equal to 50 prayers Then fifty prayers were enjoined on me I descended till I met Moses who asked me What have you done I said Fifty prayers have been enjoined on me He said I know the people better than you because I had the hardest experience to bring Bani Israel to obedience Your followers cannot put up with such obligation So return to your Lord and request Him to reduce the number of prayers I returned and requested Allah for reduction and He made it forty I returned and met Moses and had a similar discussion and then returned again to Allah for reduction and He made it thirty then twenty then ten and then I came to Moses who repeated the same advice Ultimately Allah reduced it to five When I came to Moses again he said What have you done I said Allah has made it five only He repeated the same advice but I said that I surrendered to Allah s Final Order Allah s Apostle was addressed by Allah I have decreed My obligation and have reduced the burden on My slaves and I shall reward a single good deed as if it were ten good deeds Sahih Al Bukhari 4 429 The Prophet PBUH has said Whoever guides another to a good deed will get a reward similar to the one who performs it Saheeh Muslim Saaiduna Anas Bin Malik Radiallahu Anhu narrates that the Prophet of Allah Sallallahu Alahi Wasalam said Whosoever offers his fajr prayer

Astronomy of Islamic Times for the Twenty-first Century Mohammad Ilyas,1988 *Encyclopaedia of the History of Science, Technology, and Medicine in Non-Western Cultures* Helaine Selin,2013-11-11 The Encyclopaedia fills a gap in both the history of science and in cultural studies Reference works on other cultures tend either to omit science completely or pay little attention to it and those on the history of science almost always start with the Greeks with perhaps a mention of the Islamic world as a translator of Greek scientific works The purpose of the Encyclopaedia is to bring together knowledge of many disparate fields in one place and to legitimize the study of other cultures science Our aim is not to claim the superiority of other cultures but to engage in a

mutual exchange of ideas The Western academic divisions of science technology and medicine have been united in the Encyclopaedia because in ancient cultures these disciplines were connected This work contributes to redressing the balance in the number of reference works devoted to the study of Western science and encourages awareness of cultural diversity The Encyclopaedia is the first compilation of this sort and it is testimony both to the earlier Eurocentric view of academia as well as to the widened vision of today There is nothing that crosses disciplinary and geographic boundaries dealing with both scientific and philosophical issues to the extent that this work does xi PERSONAL NOTE FROM THE EDITOR Many years ago I taught African history at a secondary school in Central Africa
