TURNING ON THE TYPEWRITER

Push the paper support up. Turn on the power switch located on the right side of the typewriter. Make sure the printwheel, ribbon cassette and correction tape are properly installed.

The typewriter will beep and the green power LED on the keyboard will light. The printwheel will turn and the carriage will move to the right, stopping at the programmed position.

INSERTING PAPER

Insert a sheet of paper between the platen and the paper support.

Turn the platen knob to feed the paper forward. When the leading edge of the paper becomes visible under the platen, lift up the paper bail. Continue to feed the paper forward until it is between the platen and the paper bail.

Push the paper release knob towards the rear of the typewriter to release the paper. Adjust the position of the paper so that it is straight. Return the paper bail to its original position, and return the paper release knob to the forward position.
