

## **Vietcong military tactics.**

- **Guerrilla warfare**

Guerrilla warfare is the art of using knowledge of the landscape to avoid open battle with the enemy and to launch raids and surprise attacks, before disappearing back into the undergrowth. The Vietcong had experience of doing this while fighting the Japanese and the French after World War Two - they were very familiar with the terrain and the climate. They used the Ho Chi Minh Trail, which stretched from North Vietnam to the South, to keep their forces supplied.

- **Support from peasants**

The Vietcong won the 'hearts and minds' of the South Vietnamese peasants. They would offer to help them in their daily work and also promised them land, more wealth and freedom under Ho Chi Minh and the communists. It was difficult for American troops to know who was a Vietcong and who was not.

- **Ho Chi Minh Trail:**

Ho Chi Minh Trail: Vietcong guerrillas were kept well supplied by a constant stream of weapons from the North. These were carried on foot, by bicycle and mule along the Ho Chi Minh Trail - a jungle trail which wound through the neighbouring countries of Laos and Cambodia and which was bombed by the US Army but never fully disrupted.

The Vietcong had a hidden system of tunnels stretching over 200 miles. There were hospitals, armouries, sleeping quarters, kitchens and wells underground. These tunnel systems could hide thousands of Vietcong which helped them fight their guerrilla war. It would be the job of US 'tunnel rats' to search these tunnels. However, they were often booby-trapped with spikes and grenades.

**Designed to Learn** Lindsay Portnoy, 2019-11-19 Students become attentive curious and passionate about learning when they can see its relevance to their lives and when they are empowered to use that learning to solve problems that matter. Regardless of the subject or grade level you teach you can infuse your instruction with the meaning students crave by implementing design thinking. Design thinking prompts students to consider I've learned it. Now what am I going to do with it. In *Designed to Learn* cognitive scientist and educator Lindsay Portnoy shares the amazing teaching and learning that take place in design thinking classrooms. To set the stage she provides easy to implement strategies, classroom examples and clear tools to scaffold the processes of inquiry, discovery, design and reflection. Because formative assessment is crucial to the process Portnoy includes sample assessments that measure student learning and ensure that learners take the lead in their own learning. As the author guides you through the five elements of design thinking: understand and empathize, identify and research, communicate to ideate, prototype and test, and iterate and reflect, you'll learn how to support students as they use the content you teach to solve a problem in their community or in the world around them. Isolate a concern for their designed solution to address. Communicate ideas and provide valid reasoning for potential solutions. Prototype a solution and test it. Revise their design for maximum impact and reflect on the process. Equipped with the strategies and supports in *Designed to Learn*, teachers will be able to ensure that learning in their classrooms is visible, student centered and measurable by design.

*Complicity and Responsibility in Contemporary African Writing* Minna Johanna Niemi, 2021-05-03 This book investigates the many ways in which contemporary African fiction has reflected on themes of responsibility and complicity during the postcolonial period Covering the authors Ayi Kwei Armah Tsitsi Dangarembga Nuruddin Farah Michiel Heyns and J M Coetzee the book places each writer's novels in their cultural and literary context in order to investigate similarities and differences between fictional approaches to individual complicity in politically unstable situations In doing so the study focuses on these texts representations of discomfiting experiences of being implicated in harm done to others in order to show that it is precisely during times of political crisis that questions of moral responsibility

and implicatedness in compromised conduct become more pronounced The study also challenges longstanding western amnesia concerning responsibility for historical and present day violence in African countries and juxtaposes this denial of responsibility with the western literary readership's consumption of narratives of African suffering The study instead proposes new reading habits based on an awareness of readerly complicity and responsibility Drawing insights from across political philosophy and literary theory this book will be of interest to researchers of African literature postcolonial studies and peace and conflict studies
