

Mark scheme instructions to examiners

General

The mark scheme for each question shows:

- the marks available for each part of the question
- the total marks available for the question
- marking instructions that indicate when marks should be awarded or withheld including the principle on which each mark is awarded. Information is included to help the examiner make his or her judgement and to delineate what is creditworthy from that not worthy of credit
- a typical solution. This response is one we expect to see frequently. However credit must be given on the basis of the marking instructions.

If a student uses a method which is not explicitly covered by the marking instructions the same principles of marking should be applied. Credit should be given to any valid methods. Examiners should seek advice from their senior examiner if in any doubt.

Key to mark types

M	mark is for method
R	mark is for reasoning
A	mark is dependent on M marks and is for accuracy
B	mark is independent of M marks and is for method and accuracy
E	mark is for explanation
F	follow through from previous incorrect result

Key to mark scheme abbreviations

CAO	correct answer only
CSO	correct solution only
ft	follow through from previous incorrect result
'their'	Indicates that credit can be given from previous incorrect result
AWFW	anything which falls within
AWRT	anything which rounds to
ACF	any correct form
AG	answer given
SC	special case
OE	or equivalent
NMS	no method shown
PI	possibly implied
SCA	substantially correct approach
sf	significant figure(s)
dp	decimal place(s)

Digital Twin Technologies and Smart Cities Maryam Farsi,Alireza Daneshkhah,Amin Hosseinian-Far,Hamid Jahankhani,2019-07-22 This book provides a holistic perspective on Digital Twin DT technologies and presents cutting edge research in the field It assesses the opportunities that DT can offer for smart cities and covers the requirements for ensuring secure safe and sustainable smart cities Further the book demonstrates that DT and its benefits with regard to data visualisation real time data analytics and learning leading to improved confidence in decision making reasoning monitoring and warning to support accurate diagnostics and prognostics acting using edge control and what if analysis and connection with back end business applications hold significant potential for applications in smart cities by employing a wide range of sensory and data acquisition systems in various parts of the urban infrastructure The contributing authors reveal how and why DT technologies that are used for monitoring visualising diagnosing and predicting in real time are vital to cities sustainability and efficiency The concepts outlined in the book represents a city together with all of its infrastructure elements which communicate with each other in a complex manner Moreover securing Internet of Things IoT which is one of

the key enablers of DT s is discussed in details and from various perspectives The book offers an outstanding reference guide for practitioners and researchers in manufacturing operations research and communications who are considering digitising some of their assets and related services It is also a valuable asset for graduate students and academics who are looking to identify research gaps and develop their own proposals for further research

The Truth About Our Schools Melissa Benn,Janet Downs,2015-11-06 A superb crucial blistering expose of all the myths about our education system that are all too often used to attack it Melissa Benn again proves why she is one of country s most formidable education campaigners and why the powerful should fear her Owen Jones Guardian columnist and best selling author Never has it been more urgent to publicise the truth about what works and doesn t work in our education system Debunking the ideology of marketisation and exposing the half truths that pass for objective reporting Benn and Downs meticulously lay out the evidence that a national system of comprehensive schools delivers the best outcomes This hugely important book should be required reading for each new Education Secretary Caroline Lucas MP Opinions about comprehensive education are often made into easy to swallow sound bites by media and politicians alike and whilst the benefits of a genuinely comprehensive education for all pupils are obvious untruths have unwittingly evolved into hard facts Based on Melissa Benn and Janet Downs work as part of the pioneering Local Schools Network *The Truth About Our Schools* calls for us to urgently and articulately challenge unquestioned myths about state education Benn and Downs have meticulously built an argument for its still enormously vital role and rigorously challenge assumptions that Comprehensive education has failed Local authorities control and hold back schools Choice competition and markets are the route to educational success Choice will improve education in England the free school model Academies raise standards Teachers don t need qualifications Private schools have the magic DNA Progressive education lowers standards Anyone who thinks that comprehensive education cannot deliver that local authorities are the chief block to improving our school system that competition and markets are the route to educational success and that private schools hold the magic DNA that can simply be transferred to other state schools will have their beliefs shaken by this blisteringly incisive book
