Hickey, Mica L. Thompson, 2018-11-13 *Society in Focus An Introduction to Sociology Ninth Edition* emphasizes how society and social forces affect everything from globalization and international policies to day to day activities in our personal lives. In this edition the authors go beyond the mere questioning of issues to take a closer look at the social world in which we live. They provide an integrated approach that uses sociological thinking to help students analyze and understand key concepts. To focus increased attention on sociological thinking and research methods they have chosen four key themes: media and technology, globalization, cultural diversity, and trends for the future. Because sociology is about all of us and our daily lives it is an eminently practical and useful discipline for understanding our social world. This Ninth Edition includes specific student outcomes for each chapter as well as assessment items linked to those outcomes, new chapter opening vignettes that give real life examples illustrating important terms, concepts and theories included in that chapter, updated data, statistics, maps, charts, boxes and tables citing the latest research, available examples of the powerful impact of media and technology on society, especially the role social media play in helping to shape and define our daily social lives, new photos and cartoons accompanied by critical thinking questions that reinforce and illustrate important sociological terms, concepts and theories.

Excited Delirium Aisha M. Beliso-De Jesús, 2024-06-24 In 1980 Charles Wetli, a Miami based medical examiner and self proclaimed cult expert of Afro Caribbean religions identified what he called excited delirium syndrome. Soon medical examiners began using the syndrome regularly to describe the deaths of Black men and women during interactions with police. Police and medical examiners claimed that Black people with so called excited delirium exhibited superhuman strength induced from narcotics abuse. It was fatal heart failure that killed them, examiners said, not forceful police restraints. In *Excited Delirium* Aisha M. Beliso-De Jesús examines this fabricated medical diagnosis and its use to justify and erase police violence against Black and Brown communities. Exposing excited delirium syndrome's flawed diagnostic criteria, she outlines its inextricable ties to the criminalization of Afro-Latin religions. Beliso-De Jesús demonstrates that it is yet a further example of the systemic racism that pervades law enforcement in which the culpability for state violence is shifted from the state onto its victims. In so doing she furthers understanding of the complex layers of medicalized state sanctioned violence against people of color in the United States. *Bibliographic Guide to Education*, 1991 lists publications cataloged by Teachers College, Columbia University, supplemented by The Research Libraries of The New York Public Library.
