Consultations & Appointments Form Organiser for Manual Lymph Drainage Massage Therapists Galina St George, 2019-06-02 My name is Galina St George I am a Natural Health and Beauty Practitioner Massage Therapist Hypnotherapist Stress Management and Health Coach I have been studying natural health since 1999 and have completed many courses all of which required substantial learning including doing case studies as part of the courses While doing my case studies I noticed that all of us had to create our own consultation forms Having finished working with the client it was very easy to misplace and lose the forms since they were just printed pieces of paper Now imagine being a practising therapist Every consultation form contains the information which a therapist should keep just in case there are issues with the client which may involve an insurance company The other point is that with the tightening of GDPR rules recently it is now more important than ever to keep all the records safe Imagine your consultation forms with sensitive and very private information lying all over the place and being found by other people I do understand that these days many therapists use computers to fill in the consultation forms and keep their clients records However computers can get hacked This is why I believe that nothing can replace an old fashioned method of filling out physical consultation forms So to help my fellow therapists and students who are learning to become ones I have decided to create this book of consultation forms and appointment sheets for Manual Lymph Drainage Massage Therapists You can use it for booking and treating new and existing clients You can also use these forms for your case studies If you already offer or plan to study other therapies do check out my author page to see what else I have to offer
