Robinson's cookbook could not come at a better time. The whole world is beginning to realize that animal agriculture a major source of water pollution and deforestation is one of the biggest culprits in global warming. The 2007 United Nations report shows that farmed animals are a top contributor to today's serious environmental problems including greenhouse gases. The global increase in meat consumption also causes rates of obesity, diabetes, heart disease and other diet related illnesses to soar. If we're going to reverse the damage we've done to our health and the environment we have to begin now. Around the World Vegan Style is a step in that direction. Patrice Green, M.D., J.D. Assistant Professor, University of Maryland School of Medicine, Faculty Member, Union Memorial Hospital, Internal Medicine Fellow, American College of Legal Medicine. There is just food and the land to grow that food. If we can all just realize this simple fact for one moment and stop fighting over the land that holds the roots that support the tree that bears the fruit that feeds the child, then maybe just maybe peace. Around the World Vegan Style is more than a cookbook. Nancy Robinson shares how the vegan lifestyle embraces all facets of just food for all life. George Eisman, Registered Dietitian, Teacher and Clinician, Author, The Most Noble Diet. I'm delighted to recommend Around the World Vegan Style. Nancy Robinson's cooking is out of this world. Luckily her superb recipes from around the world are right here in this book. Nancy combines exquisite flavors with the most sumptuous dining experience.
