Informed is best Amy Brown,2019 From the moment you share the news that you are pregnant or have a new baby it feels like everyone becomes an expert Did you see that headline Did you hear that story on TV Have you heard the latest about what they say is best In a world overflowing with information telling you what is best for you and your baby making decisions can feel overwhelming Who do you trust Who is telling the truth And how do you know if what they are saying is right for you How By becoming your own expert in sorting the media spin and politics from the actual facts and data This isn't a book that is going to tell you which decisions to make or that there is ever one right answer It is not going to tell you that the same thing is always best for everyone Instead this is a guide to help you evaluate information and evidence to decide what is right for you your body and your baby In three main parts it will firstly open your eyes to how information is shared in the media and how this can affect our thinking and decision making Next it will help you spot who is funding leading and promoting research and how this can affect the content of what is shared Finally it will talk you through reading understanding and evaluating evidence for yourself across topics in pregnancy birth and caring for babies You ll learn how to spot weaknesses in methods used how to determine the real risk for you and your baby and how wider context and other factors can influence what research means for you Information is power Making your own decisions that are right for you is empowering Informed is best AIIMS Annual Report All-India Institute of Medical Sciences,2014 The Schenley Experiment Jake Oresick,2017-04-14 The Schenley Experiment is the story of Pittsburgh's first public high school a social incubator in a largely segregated city that was highly even improbably successful throughout its 156 year existence Established in 1855 as Central High School and reorganized in 1916 Schenley High School was a model of innovative public education and an ongoing experiment in diversity Its graduates include Andy Warhol actor Bill Nunn and jazz virtuoso Earl Hines and its prestigious academic program and pensions lured such teachers as future Pulitzer Prize winner Willa Cather The subject of investment as well as destructive neglect the school reflects the history of the city of Pittsburgh and provides a study in both the best and worst of urban public education practices there and across the Rust Belt Integrated decades before Brown v Board of Education Schenley succumbed to default segregation during the white flight of the 1970s it rose again to prominence in the late 1980s when parents camped out in six day long lines to enroll their children in visionary superintendent Richard C Wallace's reinvigorated school Although the historic triangular building was a cornerstone of its North Oakland neighborhood and a showpiece for the city of Pittsburgh officials closed the school in 2008 citing over 50 million in necessary renovations a controversial event that captured national attention Schenley alumnus Jake Oresick tells this story through interviews historical documents and hundreds of first person accounts drawn from a community indelibly tied to the school A memorable important work of local and educational history his book is a case study of desegregation magnet education and the changing nature and legacies of America's oldest public schools **Women in Science Now** Lisa

M. P. Munoz, 2023-10-31 Silver Medal in the Social Change and Social Justice Category 2024 Nautilus Book Awards Winner 2024 Choice Outstanding Academic Title Women working in the sciences face obstacles at virtually every step along their career paths From subtle slights to blatant biases deep systemic problems block women from advancing or push them out of science and technology entirely Women in Science Now examines solutions to this persistent gender gap offering new perspectives on how to make science more equitable and inclusive for all This book shares stories and insights of women from a range of backgrounds working in various disciplines illustrating the journeys that brought them to the sciences the challenges they faced along the way and the important contributions they have made to their fields Lisa M P Munoz combines these narratives with a wealth of data to illuminate the size and scope of the challenges women scientists face while highlighting research based solutions to help overcome these obstacles She presents groundbreaking studies in social psychology and organizational behavior that are informing novel approaches for combating historic and ongoing inequities Through a combined focus on personal experiences and social science research this timely book provides both a path toward greater gender equity and an inspiring vision of science and scientists

What Makes a World-Class School and How We Can Get There James H. Stronge, Xianxuan Xu, 2017-06-15 For years students in the United States have lagged behind students in many other countries on such measures of achievement as the PISA and TIMSS assessments In an increasingly globalized world such a gap is worrisome Armed with statistics examples and cautionary tales from Scandinavia to Japan James H Stronge and Xianxuan Xu have written a book that can help educators better prepare students and close that gap In What Makes a World Class School and How We Can Get There you will find Careful analysis of recent international assessment results what they mean and what can be done to improve them In depth profiles of high achieving education systems around the globe their histories their lessons learned and what they can teach educators and policymakers in the United States Strategies for aligning successful educational approaches from international systems to U S schools which strategies to use in which subjects and with which students Transformative ideas for cultivating a truly world class system of schooling both simple and complex ways to raise the bar for all students no matter what their background Educators in every country must ensure that their students are as prepared as possible to lead a future generation of citizens This thought provoking and copiously researched book provides educators with a blueprint for radical improvement based on the hard learned experiences of their peers around the world
