Fundamentals of Collection Development and Management, Fourth Edition Peggy Johnson,2018-07-23 Technical Services Quarterly declared that the third edition must now be considered the essential textbook for collection development and management the first place to go for reliable and informative advice For the fourth edition expert instructor and librarian Johnson has revised and freshened this resource to ensure its timeliness and continued excellence Each chapter offers complete coverage of one aspect of collection development and management including numerous suggestions for further reading and narrative case studies exploring the issues Thorough consideration is given to traditional management topics such as organization of the collection weeding staffing and policymaking cooperative collection development and management licenses negotiation contracts maintaining productive relationships with vendors and publishers and other important purchasing and budgeting topics important issues such as the ways that changes in information delivery and access technologies continue to reshape the discipline the evolving needs and expectations of library users and new roles for subject specialists all illustrated using updated examples and data andmarketing liaison activities and outreach As a comprehensive introduction for LIS students a primer for experienced librarians with new collection development and management responsibilities and a handy reference resource for practitioners as they go about their day to day work the value and usefulness of this book remain unequaled

Beating Captain Najork Todd R. Nelson,2006-11-12 Weekly columns

by an elementary school principal during his six years in a small town in Maine Taking Back Philosophy Bryan W. Van Norden, 2017-12-05 Are American colleges and universities failing their students by refusing to teach the philosophical traditions of China India Africa and other non Western cultures This biting and provocative critique of American higher education says yes Even though we live in an increasingly multicultural world most philosophy departments stubbornly insist that only Western philosophy is real philosophy and denigrate everything outside the European canon In Taking Back Philosophy Bryan W Van Norden lambastes academic philosophy for its Eurocentrism insularity and complicity with nationalism and issues a ringing call to make our educational institutions live up to their cosmopolitan ideals In a cheeky agenda setting and controversial style Van Norden an expert in Chinese philosophy proposes an inclusive multicultural approach to philosophical inquiry He showcases several accessible examples of how Western and Asian thinkers can be brought into productive dialogue demonstrating that philosophy only becomes deeper as it becomes increasingly diverse and pluralistic Taking Back Philosophy is at once a manifesto for multicultural education an accessible introduction to Confucian and Buddhist philosophy a critique of the ethnocentrism and anti intellectualism characteristic of much contemporary American politics a defense of the value of philosophy and a liberal arts education and a call to return to the search for the good life that defined philosophy for Confucius Socrates and the Buddha Building on a popular New York Times opinion piece that suggested any philosophy department that fails to teach non Western philosophy should be renamed a Department of European and American Philosophy this book will challenge any student or scholar of philosophy to reconsider what constitutes the love of wisdom **Agents of Flourishing** Amy L. Sherman, 2022-05-10 God calls Christians of every vocation to participate in his redemptive mission so that every corner and square inch of society can flourish as God intends Amy Sherman offers a multifaceted biblically grounded roadmap for enacting God s call to seek the shalom of our communities showcasing historical and contemporary models of faithful and transformational cultural engagement *Sick Schools* David V. Anderson, 2020-01-10 Who s afraid of for profit education Those who work in non profit or government owned and operated schools Many parents and other stakeholders have been made fearful by this education establishment What s more important to humans nutrition or education Nutrition is more important because it is the prerequisite for other human activities including education What organizations provide food and who pays for the food Food is provided by for profit farmers for profit processors for profit wholesalers and for profit retailers Most food is purchased with the consumers own money but a significant amount is purchased by low income individuals using food stamps Why can t education be provided similarly using education stamps We trust for profit enterprises to provide our food Why can t we trust for profit enterprises to provide K 12 education Fearmongers have frightened us and made us into gullible compliant socialists who despise commercial activities in education Go to the supermarket and ponder its marvelous array of foods and then contemplate how a for profit K 12 education sector would please and amaze its customers *Charged Particles in Oncology*

Marco Durante, Francis A. Cucinotta, Jay S. Loeffler, 2018-01-31 High energy charged particles represent a cutting edge technique in radiation oncology Protons and carbon ions are used in several centers all over the world for the treatment of different solid tumors Typical indications are ocular malignancies tumors of the base of the skull hepatocellular carcinomas and various sarcomas The physical characteristics of the charged particles Bragg peak allow sparing of much more normal tissues than it is possible using conventional X rays and for this reason all pediatric tumors are considered eligible for protontherapy Ions heavier than protons also display special radiobiological characteristics which make them effective against radioresistant and hypoxic tumors On the other hand protons and ions with high charge Z and energy HZE particles represent a major risk for human space exploration The main late effect of radiation exposure is cancer induction and at the moment the dose limits for astronauts are based on cancer mortality risk The Mars Science Laboratory MSL measured the dose on the route to Mars and on the planet s surface suggesting that a human exploration missions will exceed the radiation risk limits Notwithstanding many studies on carcinogenesis induced by protons and heavy ions the risk uncertainty remains very high In this research topic we aim at gathering the experiences and opinions of scientists dealing with high energy charged particles either for cancer treatment or for space radiation protection Clinical results with protons and heavy ions as well as research in medical physics and pre clinical radiobiology are reported In addition ground based and spaceflight studies on the effects of space radiation are included in this book Particularly relevant for space studies are the clinical results on normal tissue complications and second cancers The eBook nicely demonstrates that particle therapy in oncology and protection of astronauts from space radiation share many common topics and can learn from each other

Born to Choose John H Falk, 2017-09-05 Born to Choose is John H Falk s compelling account of why and how we make the endless set of choices we do every second of every day of our lives Synthesizing research from across the biological and social sciences Falk argues that human choice making is an evolutionarily ancient and complex process He suggests that all our choices are influenced by very basic and early evolving needs and that ultimately each choice is designed to support survival in the guise of perceived well being This engaging book breaks new intellectual ground and enhances our understanding not just of human choice making but human behavior overall
