**Sport in the African World** John Nauright, Mahfoud Amara, 2018-05-16 Sport has been a component of African cultural life for several hundred years. In today's globalized world, Africans and Africa have become a vital part of the international sporting landscape. This is the first book to attempt to survey the historical, contemporary, and geographical breadth of that landscape, drawing on multidisciplinary scholarship from around the world. To gain an understanding of sport in Africa and its contributions to the global sports world, one must first consider the ways in which sport itself is a terrain of conflict and represents another symbolic territory to conquer. Addressing key themes such as colonialism, globalization, migration, apartheid, politics, and international relations, sports media and broadcasting, ethno-branding, sports tourism, and the African diaspora in Europe and the United States, this collection of original scholarship offers a significant contribution to this burgeoning field of research. **Sport in the African World** is fascinating reading for all students and scholars with an interest in sport studies, sport history, African history, or African culture.

**Football in the Middle East** Abdullah Al-Arian, 2022-09-01 Far and away the most popular sport in the world, football has a special place in Middle Eastern societies and for Middle Eastern states. With Qatar hosting the 2022 FIFA World Cup, this region has been cast into the global footballing spotlight, raising issues of geopolitical competition, consumer culture, and social justice. Taking an interdisciplinary approach, this book examines the complex questions raised by the phenomenon of football as a significant cultural force in the Middle East, as well as its linkages to broader political and socioeconomic processes. The establishment of football as a national sport offers significant insight into the region's historical experiences with colonialism and struggles for independence, as well as the sport's vital role in local and regional politics today, whether at the forefront of popular mobilizations or as an instrument of authoritarian control. Football has also served as an arena of contestation in the formation of national identity, the struggle for gender equality, and the development of the media landscape. The twelve contributions to this volume draw on extensive engagement with the existing body of literature and introduce original research questions that promise to open new directions for the study of football in the Middle East.
