Evans, 2025-01-21 A Guide to Biblical Commentaries and Reference Works 11th Edition by John F Evans summarizes and briefly analyzes all recent and many older commentaries on each book of the Bible giving insightful comments on the approach of each commentary and its usefulness for biblical interpretation The easy to use book provides analysis in canonical order and includes helpful appendices for compiling a personal research library A Guide to Biblical Commentaries and Reference Works 11th Edition is a key reference tool for any student of the Bible pastors laity and scholars alike *Catalogue of All Books in the Circulating and Reference Departments of the Public School Library, Columbus ...* Columbus (Ohio). Stocks, 2012-06-01 This book explores the little regarded phenomenon of the tricolon in biblical Hebrew poetry that is those poetic lines that appear to have a tripartite form rather than the more common bipartite form Taking the Psalms of Ascents as a sample corpus of poetic texts it identifies tricola on an explicit and consistent basis It draws on the rhythmical accentual approach of Eduard Sievers and in so doing highlights an important but neglected aspect of his method The concept of a para tricolon is developed designating a line that is tripartite yet rhythmically equivalent to a conventional bicolon Analyses of psalm structures and of the syntactic and semantic structures of each tripartite line facilitate an assessment of the function of and characterization of tripartite lines The significance of enjambment is explored as a distinguishing factor between different line forms and as a means of uniting non parallel cola The study demonstrates clear differences between the form and function of para tricola and those of tricola and so will facilitate a more nuanced and realistic appraisal of the functional significance of Hebrew poetic line forms **Speaker Builder**, 1993 **Subject Guide to Books in Print**, 1984 **Keyboard**, 2006 Teoria do Gatekeeping Pamela J.
