IFRS to be used throughout the world aims to improve the comparability and understandability of financial statements and hence to enhance investment decisions through helping investors across the borders to invest in multinational companies. Although fluid and under developed institutional arrangements remain central features of emerging markets ensuring effective corporate governance mechanisms would indeed support companies in complying with IFRS the latter imposes a challenge for companies operating in emerging markets. This book evaluates the differences in the level of compliance with IFRS across the GCC states exploring the impact of corporate governance on the level of compliance with IFRS and presenting an empirical analysis of companies across the GCC. It makes an important contribution by providing a detailed empirical analysis of the interplay between corporate governance and IFRS in emerging market setting and highlights the way for future research. It will provide international business management and accounting and finance students and senior practitioners with a completely new and updated guide to the work in the field of corporate governance and IFRS compliance in emerging markets.

Strategic Management - New Rules for Old Europe Christian Scholz, Joachim

Zentes,2007-11-05 Perhaps it was not really meant the way it was said but when Donald Rumsfeld used the term Old Europe in his famous speech of January 22 2003 he coined a phrase to depict not the birthplace of modern society but a graveyard of old and outdated ideas Even though it is legitimate for many of us in Europe to oppose the underlying message of going to war in Iraq it makes absolute sense to examine the rules of the game which Europe is currently playing and which it will play in the future In doing so it becomes obvious that important changes are taking place Strategic Management New Rules for Old Europe makes the hidden rules governing strategic management in Europe transparent The book follows a from to logic and takes the reader along the course of changing conditions and contingencies Europe has not only witnessed major transformations such as the dramatic fall of the Iron Curtain economic and monetary integration and the incorporation of new member states Fundamental change can also be perceived with respect to the corporate responses to these ongoing dynamic changes Strategic Management New Rules for Old Europe is divided into four parts Each of these consists of several contributions starting with the focus on people then on culture then on systems
