Lord Petronio M. Genebago,2023-07-07 The Day of the Lord texts of Malachi Mal 3 2 7 4 5 demonstrate that he seems to
 allude to Joel s Day of the Lord 2 11 13 31 MT 3 4 Malachi s Day of the Lord seems to have a strong inner biblical
 relationship with the Day of the Lord motif of Joel A significant interpretive loss is committed when allusion is recognized in
 the source text but ignored and not explored Thus the passages themselves call for an inner biblical allusion study In addition
 the interpretive significance of Joel s Day of the Lord in Malachi has not been investigated comprehensively as the review of
 literature and intertextual and inner biblical studies on Malachi validated Thus these are the interrelated questions a What
 are the criteria to verify the inner biblical connection between Malachi and Joel on the Day of the Lord b How did Malachi
 use Joel s Day of the Lord motif c How did Malachi develop the Day of the Lord theme in his book There are three purposes of
 this study The first is to identify objective criteria to verify the inner biblical connection between Malachi and Joel on the Day
 of the Lord The second is to determine how Malachi used Joel s Day of the Lord motif The last is to ascertain how Malachi
 developed the Day of the Lord theme in his book Strategic Autonomy and Economic Power Vitor Bento,2022-08-04 This
 book examines the effect of economic power on a state s strategic autonomy Strategic autonomy is a fundamental condition
 for the availability of strategic options in the interaction of states This book provides the first clear operational definition of
 the concept and offers an analysis of the relevance of the national economy to strategic autonomy The main sources of
 economic power size of the economy position in trade and technological networks savings wealth and finance and their
 impact on strategic autonomy are analyzed in depth The strategic governance of the national economy is also addressed as a
 way of ensuring that national economic power can work as strategic power for a country providing it with strategic autonomy
 The strategies pursued by China which in under four decades has gone from an underdeveloped state to the main challenger
 of the dominant world power and Germany which despite being defeated in World War II having no nuclear weapons and
 having chosen to be a civilian power became the dominant power in Europe are analyzed in depth as two paradigmatic
 examples of the theory developed by the book This book will be of much interest to students of strategic studies economics
