Joas Special Edition 2012:

Cosmoipolitan Justice Jonathan Bowman, 2015-01-12 This book assesses the rapid transformation of the political agency of religious groups within transnational civil society under the conditions of globalization that have weakened the sovereign nation state. It offers a comprehensive synthesis of the parallel resurgences of Jasper's axial thesis from the distinct lines of research initiated by Eisenstadt, Habermas, Taylor, Bellah and others. It explores the concept of cosmoipolitanism from the combined perspectives of sociology of religion, critical theory, secularization theory and evolutionary cultural anthropology. At the theoretical level, cosmoipolitanism prescribes how local, national, transnational, global and virtual spaces ought publically to engage in transcivilizational discourse without presuming secular assumptions tied to cosmopolitanism. As a transnational extension of the moral/ethical universality of the great Axial Age traditions, cosmoipolitanism provides an ideal description of empirical data. Employing the insights of critical theory, this book offers a micro-level analysis of the pragmatics of discourse of each of the major axial traditions, producing a genealogy in iterated stages of the dialectics of secularization as a multi-faceted narrative of the role of religion in alternative modernities. While circumscribing the particular historical limits of each tradition, the book extends their internal claims to species universality in light of the potential for boundless communication Jaspers saw as initiated with the Axial Age. In Jon Bowman's novel and important work, he rethinks the challenges of global justice. Bowman is not just concerned with global justice in the modern world but with a genealogy that begins with a better understanding of the Axial age, one that is also the unique signature of cosmoi-political institutions. Arguing with depth and precision, Bowman challenges Kantian and Rawlsian universalism. His argument provides a new interpretation of cosmopolitan justice as he explores the deeper roots of cosmopolitan justice. James Bohman, Saint Louis University. Jon Bowman's *Cosmoipolitan Justice* is an important, innovative and timely work. Construing globality in terms of pervasive conditions of worldwide interdependence, Bowman advances a decidedly pluralistic account of cosmopolitanism, one uniquely shaped by recent theories of multiple modernities. His analysis is sustained by a highly informed appropriation of such diverse thinkers as Theodor Adorno, Abdullah An-Naim, Talad Asad, Schmu'el Eisenstadt, J'rgen Habermas, Karl Jaspers, John Rawls, Amartya Sen and Charles Taylor. One special feature is the book's synthesis of research on global governance with that on post-secularity and the place of religion in the public sphere. On this basis, Bowman presents a distinctive account of the world's axial religions, one underwriting a multi-polar, intercultural global public realm able to address social, political and economic issues confronting the global community today. This book should be of great interest to students and scholars in philosophy, political theory, international relations, sociology and religious studies. Professor Andrew Buchwalter, Department of Philosophy, University of North Florida. Antweiler, 2023-04-27 Honourable Mention in the Best First Book Award of the Memory Studies Association 2025 This book

provides an analysis of the forms and functions of Holocaust memorialisation in human rights museums by asking about the impact of global memory politics on how we imagine the present and the future It compares three human rights museums and their respective employment of the Holocaust and seeks to illuminate how in this specific setting memory politics simultaneously function as future politics because they delineate a normative ideal of the citizen subject its set of values and aspirations for the future that of the historically aware human rights advocate More than an ethical practice engaging with the Holocaust is used as a means of asserting one's standing on the right side of history the memorialisation of the Holocaust has thus become a means of governmentality a way of governing contemporary citizen subjects The linking of public memory of the Holocaust with the human rights project is often presented as highly beneficial for all members of what is often called the global community Yet this book argues that this specific constellation of memory also has the ability to function as an exercise of power and thus runs the risk of reinforcing structural oppression With its novel theoretical approach this book not only contributes to Memory Studies but also connects Holocaust memory to Studies of Global Governmentality and the debate on decolonising memory politics Arbitration in Argentina Fabricio Fortese, 2020-11-17 This publication is the most
