Let Them Eat Junk How Capitalism Creates Hunger And Obesity:

Let Them Eat Junk Robert Albritton, 2009-04-15 A thorough explanation of how the capitalist system creates simultaneous hunger and obesity *The Ruling Ideas* Amy E. Wendling, 2012-07-30 The concepts that organize our thinking wield by virtue of this fact a great deal of political power This book looks at five concepts whose dominion has increased steadily during the bourgeois period of modernity Labor Time Property Value and Crisis These ruling ideas are central not only to many academic disciplines from philosophy and law to the political social and economic sciences but also to everyday life These ruling ideas explain the cultural attitudes of boredom and multitasking revealing the inescapable internalized consciousness of time that has become a mode of political domination They also explain the terrifying environmental problem of privatized property in water and the terrifying humanitarian problem of privatized property in human bodies and body parts Finally they explain the affective dimensions of the housing crisis and especially why capitalism cultivates the desire to own a home that is beyond one's means Encyclopedia of Contemporary American Social Issues Michael

Shally-Jensen, 2010-12-22 This single source reference will help students and general readers alike understand the most critical issues facing American society today Featuring the work of almost 200 expert contributors the Encyclopedia of Contemporary American Social Issues comprises four volumes each devoted to a particular subject area Volume one covers business and the economy volume two criminal justice volume three family and society and volume four the environment science and technology Coverage within these volumes ranges from biotechnology to identity theft from racial profiling to corporate governance from school choice to food safety The work brings into focus a broad array of key issues confronting American society today Approximately 225 in depth entries lay out the controversies debated in the media on campuses in government in boardrooms and in homes and neighborhoods across the United States Critical issues in criminology medicine religion commerce education the environment media family life and science are all carefully described and examined in a scholarly yet accessible way Sidebars photos charts and graphs throughout augment the entries making them even more compelling and informative *Food and Culture* Carole Counihan, Penny Van Esterik, 2013 This reader reveals how food habits and beliefs both present a microcosm of any culture and contribute to our understanding of human behaviour

Particular attention is given to how men and women define themselves differently through food choices **Elgar**

Fat-Talk Nation Susan Greenhalgh, 2015-06-24 In recent decades America has been waging a veritable war on fat in

which not just public health authorities but every sector of society is engaged in constant fat talk aimed at educating badgering and ridiculing heavy people into shedding pounds We hear a great deal about the dangers of fatness to the nation but little about the dangers of today s epidemic of fat talk to individuals and society at large The human trauma caused by the war on fat is disturbing and it is virtually unknown How do those who do not fit the ideal body type feel being the object of abuse discrimination and even revulsion How do people feel being told they are a burden on the healthcare system for having a BMI outside what is deemed with little solid scientific evidence healthy How do young people already prone to self doubt about their bodies withstand the daily assault on their body type and sense of self worth In *Fat Talk Nation* Susan Greenhalgh tells the story of today s fight against excess pounds by giving young people the campaign s main target an opportunity to speak about experiences that have long lain hidden in silence and shame Featuring forty five autobiographical narratives of personal struggles with diet weight bad BMIs and eating disorders *Fat Talk Nation* shows how the war on fat has produced a generation of young people who are obsessed with their bodies and whose most fundamental sense of self comes from their size It reveals that regardless of their weight many people feel miserable about their bodies and almost no one is able to lose weight and keep it off Greenhalgh argues that attempts to rescue America from obesity induced national decline are damaging the bodily and emotional health of young people and disrupting families and intimate relationships Fatness today is not primarily about health Greenhalgh asserts more fundamentally it is about morality and political inclusion exclusion or citizenship To unpack the complexity of fat politics today Greenhalgh introduces a cluster of terms biocitizen biomyth biopedagogy bioabuse biocop and fat personhood and shows how they work together to produce such deep investments in the attainment of the thin fit body These concepts which constitute a theory of the workings of our biocitizenship culture offer powerful tools for understanding how obesity has come to remake who we are as a nation and how we might work to reverse course for the next generation *New Scientist* ,2009 [Philosophy of Music Education Review](#) ,2014 **Quill & Quire** ,2009 [The British National Bibliography](#) Arthur James Wells,2009 [Choice](#) ,2009

A bold compelling challenge to conventional thinking about obesity and its fixes *Weighing In* is one of the most important books on food politics to hit the shelves in a long time Susanne Freidberg author of *Fresh A Perishable History* *Weighing In* is filled with counterintuitive surprises that should make us skeptics of all kinds of food whether local fast slow junk or health but also gives us the practical tools to effectively scrutinize the stale buffet of popularly accepted health wisdom before we digest it Paul Robbins professor of Geography and Development University of Arizona If you liked Michael Pollan this should be your next read Guthman gives us the research behind the questions we should be asking but falling all over ourselves in the rush to consensus we have overlooked A self described Berkeley foodie Guthman takes on the self satisfaction of the alternative food movement and places it in rich context drawing on research in health economics labor agriculture sociology

and politics This marvelous surprising book is a true game changer in our national conversation about food and justice Anna Kirkland author of *Fat Rights Dilemmas of Difference and Personhood* This groundbreaking book calls into question the ubiquitous claim that good food will solve the social and health dilemmas of today Combining political economic analysis cultural critique and clear explanation of scientific discoveries the author challenges our deeply held convictions about society food bodies and environments Becky Mansfield editor of *Privatization Property and the Remaking of Nature Society Relations* Step back from that farmer s market Guthman shows us that good foods and good eating are not enough By questioning the fuzzy facts on obesity the impact of environment and capitalism s relentless push to consume *Weighing In* challenges us to think harder and better about what it really takes to be healthy in the modern age Carolyn de la Pe a author of *Empty Pleasures The Story of Artificial Sweetener from Saccharin to Splenda*

A Foodie's Guide to Capitalism Eric Holt-Giménez, 2017-10-24 Capitalism drives our global food system Everyone who wants to end hunger who wants to eat good clean healthy food needs to understand capitalism This book will help do that In his latest book Eric Holt Gim nez takes on the social environmental and economic crises of the capitalist mode of food production Drawing from classical and modern analyses *A Foodie s Guide to Capitalism* introduces the reader to the history of our food system and to the basics of capitalism In straightforward prose Holt Gim nez explains the political economics of why even as local organic and gourmet food have spread around the world billions go hungry in the midst of abundance why obesity is a global epidemic and why land grabbing global warming and environmental pollution are increasing Holt Gim nez offers emblematic accounts and critiques of past and present day struggles to change the food system from voting with your fork to land occupations We learn about the potential and the pitfalls of organic and community supported agriculture certified fair trade microfinance land trusts agrarian reform cooperatives and food aid We also learn about the convergence of growing social movements using the food system to challenge capitalism How did racism classism and patriarchy become structural components of our food system Why is a rational agriculture incompatible with the global food regime Can transforming our food system transform capitalism These are questions that can only be addressed by first understanding how capitalism works
