Textbook of Dr. Vodder's Manual Lymph Drainage Günther Wittlinger, Hildegard Wittlinger, 2004 Manual Lymph Drainage MLD first introduced in 1936 by Drs Emil and Estrid Vodder of Denmark is a procedure which stimulates the lymphatic circulation with slow circular and careful pumping massage movements of the hand and the thumb The thin lymph vessels run through the body tissue like a drainage system which transports the lymphatic fluid via large collecting vessels the lymph nodes on to the blood circulation Manual Lymph Drainage has especially proven its worth in the case of a congestion of the lymphatic flow This is often the result of postoperative abdominal surgery and surgical treatment of breast carcinoma It is only with this smooth and harmonic form of massage that the lymphatic flow is stimulated in the sensitive lymph capillaries Painful swelling is removed and healing is encouraged This volume contains all the subject matter of the basic course and has proven its worth for many years Hildegard Wittlinger is the director of the Dr Vodder School in Walchsee Austria and has taught the MLD technique throughout the world since 1972

Compendium of Dr. Vodder's Manual Lymph Drainage Renato Kasseroller, 2015-11-18 Manual Lymph Drainage MLD is today an indispensable part of Physical Therapy This compendium begins by explaining the anatomical and physiological foundations of MLD Simple clear diagrams show the lymph pathways and readers will be brought up to date with more current perspectives on the lymph systems However the emphasis is on the practical use of MLD There is a large section devoted to lymphedema and therapy with photos of several different types of patients Other chapters of the book are devoted to traumatic injuries central nervous system disorders dermatological conditions rheumatic disorders and arthropathies Practical aspects of MLD are dealt with in a separate section at the end of the book Therapy strokes are described and photographed
