represent the great majority of the world's population and have quite diverse cultural and social characteristics. So the main aim of this book is to present a non-WEIRD scientific approach to problems in the cognitive sciences, neuroscience and education fields. Research presented in this contributed volume takes advantage of the diverse populations that characterize developing countries to explore how underrepresented populations learn what works and what does not for cognitive science and education not only for the developing world but also for understanding diversity in the whole world. Departing from this focus on diversity, chapters in this book present studies on theories, beliefs and misconceptions about the relationship between cognitive sciences and education, child and adolescent cognitive development, mathematics and language, academic performance and cognitive interventions to improve educational practice. *Cognitive Sciences and Education in Non-WEIRD Populations: A Latin American Perspective* will be a useful resource for both cognitive scientists and educational researchers interested in developing a more culturally sensitive approach to basic and applied research on cognitive sciences of education.

The Role of Nutrition in Integral Health and Quality of Life Jesús Alberto García-García, Julio Cufarín-López, Cristóbal Noé Aguilar, 2024-02-13.

The book also offers an analysis of obesity and its dimensions, covering childhood obesity risks and challenges at home and at school, quality of life in adult patients with diabetes, the role of genetics and epigenetics in obesity and more. The impact of nutrition on oral and dental health is also addressed in the book.

The Consequences of COVID-19 on the Mental Health of Students Haibo Yang, Li Wang, Chang Liu, 2022-08-29.

La Constitución de Cádiz en su bicentenario (1812-2012) Jorge Novella, 2013. Cádiz es la aurora de la España contemporánea. En la constitución de 1812 hallamos los elementos para la mayor parte de edad del pueblo español: se daba así un giro copernicano a lo que había sido la práctica y cultura política en nuestro país. El liberalismo gaditano frente al orden de Metternich no es un republicanismo revolucionario, pero ser combatido por esa Santa Alianza que legitimaba la intervención militar en un país en tanto se apartara de las líneas del absolutismo político. Esa es la antorcha que había prendido en Filadelfia. Pues y ahora en Cádiz. La

constitución gaditana va a provocar una revolución política anticipándose a su tiempo y especialmente al de España hace que el país salga de la minoría de edad por la vía de la emancipación El punto de partida de todos los diputados es poner límites al poder de una monarquía que no abordaba ninguno de los problemas de la patria el modelo de una monarquía hispánica y absolutista iba a devenir en un modelo cosmopolita de monarquía parlamentaria Su sistema político unitario y centralista tildado por algunos de jacobinismo marca el tránsito desde un sistema autocrático al democrático donde nación y soberanía se contemplan en un sentido moderno España la nación española alcanza la libertad y la modernidad política con la promulgación de la Constitución de 1812 en Cádiz
