NOTE:

- If a candidate answered a question TWICE, mark only the FIRST attempt.
- If a candidate crossed out an answer and did not redo it, mark the crossed-out answer.
- If a learner rounds off incorrectly, only penalise that learner ONCE per paper. Thereafter, you can accept incorrectly rounded-off answers. Please note that you may only accept the incorrect rounding, do not accept an incorrect whole number or the number after the decimal place.
- If a learner omits units, only penalise that learner ONCE per paper. Thereafter, you can accept answers without units.
- Consistent accuracy applies to ALL aspects of the marking guidelines. Annexure A includes a guide on C.A. marking to help you.
- Please note that C.A. marking cannot be applied after the second mistake a learner has made.
- Assuming values/answers to solve a problem is unacceptable.
- Learners have to show their calculations. If the marking guideline does not specifically state that marks may be awarded for the answer only, you may NOT award marks if no method is shown. Many learners do not show their factorising or substitution into the quadratic formula when solving a quadratic equation. DO NOT award marks for solutions without a method shown.
- Please carefully consider all possible answer options and mark them accordingly.
- Marks are awarded as per the guidelines, and the following symbols are used:
 - A - Accuracy
 - CA - Continued Accuracy
 - S - Statement
 - R - Reason
 - SR - Statement with Reason
