Tse-Tung, 2017-11-14. A collection of the writings that underpinned the Chinese revolution presented by one of the world's best known public intellectuals. New York Review Books. These early philosophical writings underpinned the Chinese revolutions and Mao's clarion call to insurrection has lost none of its ability to stir the blood and stimulate the mind. Tse-Tung, 2001-08. Mao Tse Tung founded the People's Republic of China in 1949. He had also been one of the founders of the Chinese Communist Party in 1921 and he is regarded along with Karl Marx and V. I. Lenin as one of the three great theorists of Marxian communism. Mao Tse Tung was born on Dec 26, 1893, into a well-to-do peasant family in Shao Shan, Hunan province. As a Marxist thinker and the leader of a socialist state, Mao gave theoretical legitimacy to the continuation of class struggle in the socialist and communist stages of development. He stressed the importance of land redistribution for the benefit of the rural peasantry, and his theories have strongly influenced the nonindustrialized Third World. This book includes important articles Mao wrote in the different periods of the Chinese revolution. A number of editions of his articles have appeared in various places, but none of them had been gone over by the author; their arrangement is haphazard, there were errors in the text, and certain important writings were omitted. The contents of the present edition are arranged in chronological order and according to the main periods in the history of the Communist Party of China since its foundation in 1922. The present edition includes a number of important writings not included in the earlier editions. Mao has read all the articles, made certain verbal changes, and in isolated cases revised the text. This book covers the periods of the First Revolutionary Civil War, 1924-27, and
