### **March 2014 Scope Magazine Answer Key:**

**Critical Genre Analysis** Vijay K. Bhatia, 2016-11-18 Genre theory has focused primarily on the analysis of generic constructs with increasing attention to and emphasis on the contexts in which such genres are produced interpreted and used to achieve objectives often giving the impression as if producing genres is an end in itself rather than a means to an end. The result of this focus is that there has been very little attention paid to the ultimate outcomes of these genre based discursive activities which are more appropriately viewed as academic institutional organizational and professional actions and practices which are invariably non discursive though often achieved through discursive means. It was this objective in mind that the book develops an approach to a more critical and deeper understanding of interdiscursive professional voices and actions. Critical Genre Analysis as a theory of discursive performance is thus an attempt to be as objective as possible rigorous in analytical endeavour using a multiperspective and multidimensional methodological framework taking into account interdiscursive aspects of genre construction to make it increasingly explanatory to demystify discursive performance in a range of professional contexts.

**Corporate Manslaughter and Corporate Homicide** Shivam Goel, 2015-06-26 A corporation is an artificial legal person existing only in the contemplation of law having perpetual succession and common seal. Can a corporation commit crime for its inability to form mens rea? If yes then can it be accused of crimes as grave as homicide? Even post the Bhopal Gas Tragedy and the Uphaar Cinema Tragedy, absence of legislation such as the Corporate Manslaughter and Corporate Homicide Act 2007 UK is no less a pity. Absolute liability theory coupled with deep pocket theory though is an improvisation over the strict liability theory but has failed to ensure corporate criminal deterrence. This book is an attempt to ponder over issues relating to corporate criminal behaviour in particular corporate homicide and corporate manslaughter.

We should not be reassured by such soothing generalities as human error, virtual reality or the cloud.
