Mental Health Commission Subcommittee Report:

District of Columbia United States. General Accounting Office,2000 District of Columbia United States. General Accounting Office,2000 **District of Columbia** ,2000 **Transforming Mental Health Services** Howard H. Goldman,Jeffrey A. Buck,Kenneth S. Thompson,2009-06-26 This compendium of 17 articles addresses the goals set forth by the President s New Freedom Commission on Mental Health in its 2003 report Achieving the Promise Transforming Mental Health Care in America The report represents the first time since the Carter Administration that such a high level group evaluated U S mental health care The report painted a dismal picture of the nation s mental health system saying the system was so broken that it was beyond simple repair The Commission said that current services focused on managing disabilities rather than helping patients achieve a meaningful life in their communities It also stated that mental health service providers ignored the preferences of consumers and their families The articles in Transforming Mental Health Services Implementing the Federal Agenda for Change originally published between 2006 and 2009 in Psychiatric Services journal of the American Psychiatric Association offer recommendations to assist adults with serious mental illness and children with serious emotional disturbances They include a series of reforms in which the emphasis is on recovery as an achievable goal and the need for a person centered orientation in service delivery There is also discussion of the reasons many service providers resist using a recovery orientation and how this can be remedied Transforming Mental Health Services Implementing the Federal Agenda for Change consists of updates of papers written by the Commission s subcommittees addressing issues fundamental to those living with mental illness It is organized into four sections The first focuses on the interface between mental health and general health and on employment housing and Medicaid financing The second continues addressing financing and Medicaid as well as issues related to school mental health recovery transformation of data systems and acceleration of research The third includes reports from four states with transformation initiatives designed to ensure that consumers have a strong voice in the development of recovery oriented services The final section describes progress five years after the President s Commission Report and concludes with a proposal by the current director of the Center for Mental Health Services for a public health model of mental health care for the 21st century This compilation of well researched and well written articles offers an excellent resource for frontline care providers facility administrators and advocates It serves as an equally valuable resource for state policy makers who wish to present a convincing case that change is happening and that the recommendations can be translated into effective policies Although consumers and their families will receive support for their perception that service providers ignore their needs they will also be encouraged that change for the better is coming to the U S mental health care system **Geropsychiatric and Mental Health Nursing** Karen Devereaux Melillo,Melillo,Susan Crocker Houde,2010-08-25 Geropsychiatric and Mental Health Nursing Second Edition addresses the knowledge and skills necessary in the assessment and nursing care of older adults experiencing

common late life mental health and psychiatric problems This text features experts in gerontological nursing and geropsychiatric fields and provides essential information for advanced practice and professional nurses as well as graduate and undergraduate nursing students The Second Edition has been completely revised and updated to include crucial areas like assessment diagnosis psychopharmacology and behavioral management strategies in nursing care of older adults New to this edition are case studies in each chapter in addition to discussion questions This new edition also presents the work of the Geropsychiatric Nursing Collaborative GPNC in its entirety The focus of the GPNC is to improve the education of nurses who care for elders suffering from depression dementia and other mental health disorders The collaborative effort enhances extant competencies for all levels of nursing education focusing on older adults with mental health illness concerns Shared in the Appendix are the competency statements developed for basic graduate post graduate and continuing education nursing programs

Kids Caught in the Psychiatric Maelstrom Elizabeth E. Root MSW, MS Ed, 2009-09-23 This book offers a warning that American children are receiving increased chemical treatment from psychiatrists and provides a primer on how to improve the emotional health of kids without drugs Maelstrom is an apt metaphor for the inexorable deterioration many children experience inside the mental health system Kids Caught in the Psychiatric Maelstrom How Pathological Labels and Therapeutic Drugs Hurt Children and Families challenges current treatment practices and addresses the critically important issue of excessive prescribing of psychiatric medications to children This encyclopedic work reveals inside the system information emphasizing the theoretical divide at the root of the controversy over diagnosis and treatment It explains how the 1990s decade of the brain replaced talk therapy with biochemical treatments leading to the hegemony of the pharmaceutical industry and subsequently the massive drugging of children Author Elizabeth E Root details common diagnoses and treatments explaining up to date brain research with some surprising interpretations and noting dangerous national precedents to mental screening Finally she illuminates pathways toward solutions and healthier families sharing nonpsychiatric explanations for the nation's increase of troubled children and the rationale and research supporting non drug alternative approaches to childhood distress
