Abolish Household Debts? Johnna Montgomerie,2019-05-07 We live in a culture of credit As wages have stagnated we ve seen a dramatic surge in private borrowing across the western world increasing numbers of households are sucked into a hopeless vortex of spiralling debt fuelled by exploitative lending In this book Johnna Montgomerie argues that the situation is chronically dysfunctional both individually and collectively She shows that abolishing household debts can put an end to austerity and to the unsustainable forward march of debt dependent growth She combines astute economic analysis with the elements of an accessible guide to practical policy solutions such as extending unconventional monetary policy to the household sector providing pragmatic and affordable refinancing options and writing off the most pernicious elements of household debt This framework she contends can help us to make our economy fairer and to tackle both the housing crisis and accelerating inequality Career Management for Artists Stacy Miller,2020-05-12 Both pragmatic and motivational this book addresses what it means to have a successful long term career in the arts taking stock of the current landscape of the art world introducing new venues in the field reflecting on issues of social media and exhibition and ultimately encouraging artists to take control of their professional lives Weaving conversations from a range of internationally based artists who have negotiated alternative paths to success lauded artist and teacher Stacy Miller provides a practical lively reflection on what it takes to be an artist in our new global landscape This book covers practical needs different approaches and philosophical ways of creating a life and career in the arts It lays out conventional and nonconventional means to representation describes being an entrepreneur versus funding independent creative projects and examines social media for the potential powerhouse it is Most importantly it gives artists a way to think about being a professional and the different paths to a successful career

in the arts Perfect for emerging mid career and experienced artists this book encourages readers to redefine personal success and to act locally nationally and internationally in an expanding art world

Every American an Innovator Matthew Wisnioski,2025-05-13 A landmark cultural history that reveals how the relentless pursuit of innovation has transformed our society our institutions and our inner selves For half a century innovation served as a universal good in an age of fracture That consensus is cracking While the imperative to innovate for a better future continues to fuel systemic change around the world critics now assail innovation culture as an engine of inequality or accuse its do gooders of woke groupthink What happened Drawing on a decade of research Every American an Innovator by Matthew Wisnioski investigates how innovation a once obscure academic term became ingrained in our institutions our education and our beliefs about ourselves Wisnioski argues that innovation culture did not spring from the digital revolution nor can it be boiled down to heroic entrepreneurs or villainous capitalists Instead he reveals the central role of a new class of experts in spreading toolkits and mindsets from the cornfields of 1940s Iowa to Silicon Valley tech giants today This group of engineers philosophers bureaucrats and business leaders posited that innovators were society s most important change agents and remade the nation in their image The innovation culture they built transcended partisan divisions and made strange bedfellows Wisnioski shows how Kennedy era policymakers inspired President Nixon s dream of a Nobel Prize for innovators how anti military professors built the first university incubators for entrepreneurs how radical feminists became millionaire consultants how demands for a rust belt manufacturing renaissance inspired theories of a global creative class how programs that encouraged girls and minority children to pursue innovative lives changed the nature of childhood play and why the innovation consensus is now in dispute
