Chandler, Edith Powell, 2018-07-10 An important historical account of Tuskegee University's significant advances in health care which affected millions of lives worldwide Alabama's celebrated historically black Tuskegee University is most

commonly associated with its founding president Booker T Washington the scientific innovator George Washington Carver or the renowned Tuskegee Airmen Although the university s accomplishments and devotion to social issues are well known its work in medical research and health care has received little acknowledgment Tuskegee has been fulfilling Washington s vision of healthy minds and bodies since its inception in 1881 In *To Raise Up the Man Farthest Down* Dana R Chandler and Edith Powell document Tuskegee University s medical and public health history with rich archival data and never before published photographs Chandler and Powell especially highlight the important but largely unsung role that Tuskegee University researchers played in the eradication of polio and they add new dimension and context to the fascinating story of the HeLa cell line that has been brought to the public s attention by popular media Tuskegee University was on the forefront in providing local farmers the benefits of agrarian research The university helped create the massive Agricultural Extension System managed today by land grant universities throughout the United States Tuskegee established the first baccalaureate nursing program in the state and was also home to Alabama s first hospital for African Americans Washington hired Alabama s first female licensed physician as a resident physician at Tuskegee Most notably Tuskegee was the site of a remarkable development in American biochemistry history its microbiology laboratory was the only one relied upon by the National Foundation for Infantile Paralysis the organization known today as the March of Dimes to produce the HeLa cell cultures employed in the national field trials for the Salk and Sabin polio vaccines Chandler and Powell are also interested in correcting a long held but false historical perception that Tuskegee University was the location for the shameful and infamous US Public Health Service study of untreated syphilis Meticulously researched this book is filled with previously undocumented information taken directly from the vast Tuskegee University archives Readers will gain a new appreciation for how Tuskegee s people and institutions have influenced community health food science and national medical life throughout the twentieth century **Educators Index of Free Materials** ,1997 **The National Jewish Monthly** ,1957

Grace Canceled Dana Loesch,2020-02-25 A society addicted to outrage is in trouble It s a seductive yet toxic drug that kills reason nuance and kindness Dana Loesch has been the target of as much outrage as anyone And as she forthrightly acknowledges here she has dished it out as well As passionately attached to faith and freedom as ever she warns that our addiction to outrage has debased our politics and reduced us to a vicious tribalism The antidote to outrage is grace a generous and forgiving spirit that tolerates those with whom one disagrees and offers redemption to the offender But grace is hard even under the best conditions and leftist rage mobs have stoked the fires of anger so assiduously with help from some of their foes on the right that grace is almost impossible Fortunately as Dana reminds us grace comes from God who specializes in the impossible In *Grace Canceled* Dana Loesch explains How America got cut up into competing tribes Why a society without grace falls for socialism Why outrage makes us dumb How violence became an acceptable political tactic on the left When anger is called for and when it s just self indulgence The three golden rules of a happy warrior Make no
