Memorandum Of Life Science Grade 2012 Final Examination

Daniel F McAuley

Memorandum Of Life Science Grade 2012 Final Examination:

Ethics in the University James G. Speight, 2016-08-26 It is the continuous reports of unethical behavior in the form of data manipulation cheating plagiarism and other forms of unacceptable behavior that draw attention to the issues of misconduct The causes of misconduct are manifold whether it is the need to advance in a chosen discipline or to compete successfully for and obtain research funding Disappointingly individuals who are oriented to any form of dishonesty are individuals who had previously displayed little or no consideration for the feelings of others and are therefore more interested in themselves at the expense of the students and others recognizing them by any means necessary This ground breaking and honest examination of ethics in the university setting is unabashed in its descriptions of misconduct in the academic world The text is well furnished with numerous citations that point to academic misconduct and the final chapter deals with the means by which misconduct can be mitigated a strong reminder to everyone in the academic community that above board conduct must be part of our overall message of learning and part of the whole point of education in the first place A must have for academics and non academics alike this text is the second in a series of books on ethics by James G Speight and it is useful to anyone in any industry who is interested in ethical behavior and how to navigate the sometimes murky depths of our professional lives
