Basic Economic concepts and gains from trade

Q: What is Economics?

A: Economics is the study of how society manages its scarce resources.

Q: What is scarcity in our society?

A: Scarcity means that society has limited resources and cannot produce all the goods and services people wish to have.

Q: What's Opportunity Cost?

A: Opportunity cost (Economic Cost) is the process of choosing one good or service over another. The item that you don't pick is the opportunity cost. The value of the next-best alternative that must be forgone in order to undertake the activity.

Q: What is the Law of Increasing opportunity cost?

A: The opportunity cost of each additional unit of product is greater than the opportunity cost of the preceding one. Producers use the resources with the lowest opportunity cost before turning to those with higher opportunity costs.

Q: What is Production Possibilities Frontier?

A: A graph that shows the combinations of output that economy can possibly produce given the available factors of production and the available production technology.

Q: What is absolute advantage?

A: The producer that requires a smaller quantity of inputs to produce a good is said to have an absolute advantage in producing that good.

Q: What is comparative advantage?

A: The producer who has the smaller opportunity cost of producing a good is said to have a comparative advantage in producing that good.

Q: How and why does a producer need to specialize in production?

A: Producers would be better off if they specialize in producing the product they are most suited to produce, and then trade with each other.

Q: What are gains from Trade?

A: Whenever potential trading parties have differences in opportunity costs, they can each benefit from trade.

INTUITIVE APPROACH 2E Using a conversational writing style everyday examples and outstanding graphs this book sets a new standard for clarity and rigor without requiring any background in calculus The author builds on the foundation of individual behavior showing readers the larger context of economic intuition while developing conceptual thinking skills with carefully written analysis The first chapters establish a set of tools that prepare the reader to understand supply demand and equilibrium The text offers unprecedented flexibility in topical coverage with four distinct paths through the topics Readers can follow a non game theory path through microeconomics a path emphasizing game theory a path emphasizing policy issues or a path focused on business Important Notice Media content referenced within the product description or the product text may not be available in the ebook version

Cheering for Self James S. Vass Jr,James Vass Jr,2003-05-13 This book is a study of UW men s basketball fans during the 2001 2002 season and explores their proclivity to cheering for self during basketball events The term basketball event is used rather than basketball game to make clear that everything connected to and seen heard or experienced before during and after a basketball game is included The actual game itself is

only part of the basketball event An undercurrent runs throughout this participant observation mini ethnography dealing with access and the relative quality of that access to basketball events being affected by ones age class race and gender The prominent role of advertising in shaping basketball events and helping to construct fans as consumers of products both commercial and institutional during the process of cheering for self is central to this idea Cheering for self is the activity engaged in by individual fans after they find things to identify or connect with through personal investment Fans cheer for self indirectly Fans cheer for the team that they identify with Through the process of cheering for self while attending the basketball event people are taught how to become fans to consume a UW product the basketball event and to consume advertisers products People have a tendency to spend their entire life trying to impress others
