M. Sims,Christopher Lancaster,2008-04-30 The JCT standard forms of building contract require a thorough understanding of their procedural requirements as well as their legal implications They require both the contractor and the architect on behalf of the employer to send a wide range of notices and letters if each party is to protect its legitimate interests The main contract forms are also supported by complex sub contract documentation Therefore it is not surprising that when this book of specimen letters notices and forms was first published it was widely welcomed by the construction industry The book provides examples of documentation likely to be required for a contract under the following JCT forms the Standard Form of Building Contract the Intermediate Form of Building Contract the Agreement for Minor Building Works the Standard Form of Building Contract With Contractor s Design It includes a commentary on the practical implications of the various documents and highlights the points to be watched The new edition takes into account the wide range of amendments to the latest editions of the standard forms following the Housing Grants Construction and Regeneration Act 1996 and in particular the new payment and adjudication provisions For the first time it features documentation for use with the JCT design and build form **Parris's Standard Form of Building Contract** David Chappell,2008-04-15 The Joint Contracts Tribunal Standard Form of Building Contract JCT 98 is now a well established

and widely used form That is not to say however that it is always well understood It is a large complex contract with a number of particularly difficult provisions It is not surprising therefore that not much guidance has been published on the form This book first written by John Parris in 1982 and revised in 1985 was widely regarded as a valuable commentary on the Standard Form Unavailable for some years it has now been substantially updated and completely rewritten by David Chappell Major changes have occurred since the last edition including a raft of amendments to the contract itself much new legislation including the Housing Grants Construction and Regeneration Act 1996 and substantial new case law The book covers all these as well as the complex performance specified work provisions and the difficult problems of nomination The nominated sub contract conditions are referred to where appropriate and the book contains guidance on related matters such as warranties letters of intent and quantum meruit The book is not simply a re writing of the contract in simple terms It contains very valuable insights and much needed guidance on some of the lesser known implications of the current form The book will provide a valuable reference for clients professional advisers and contractors as well as for lawyers needing an introduction to the contract
