*The Square and the Tower* Niall Ferguson, 2018 A reevaluation of history's turning points as collisions between old power hierarchies and new social networks explains how networks have always existed and have been responsible for key innovations and revolutionary ideas

*Individuality and Modernity in Berlin* Moritz Föllmer, 2013-01-17 Moritz Föllmer traces the history of individuality in Berlin from the late 1920s to the construction of the Berlin Wall in August 1961 The demand to be recognised as an individual was central to metropolitan society as were the spectres of risk isolation and loss of agency This was true under all five regimes of the period through economic depression war occupation and reconstruction The quest for individuality could put democracy under pressure as in the Weimar years and could be satisfied by a dictatorship as was the case in the Third Reich It was only in the course of the 1950s when liberal democracy was able to offer superior opportunities for consumerism that individuality finally claimed the mantle Individuality and Modernity in Berlin proposes a fresh perspective on twentieth century Berlin that will engage readers with an interest in the German metropolis as well as European urban history more broadly
