O'Leary, 2016-02-04 Across the span of more than forty years Raphael Dorman O Leary a professor of English rhetoric and English literature taught his students at the University of Kansas to think straight to put sinew into their sentences and to embrace the magnificent literary treasures of their mother tongue The English Professor by authors Margaret R O Leary and Dennis S O Leary offers a narrative of the life work and times of a revered Midwestern university English teacher This memoir narrates how the professor born in 1866 was raised on a Kansas farm in the post bellum era Like his father before him he was committed to a life of learning and teaching His colleagues knew him for his unpretentious exterior honesty and integrity and his flashing anger at cheapness vulgarity pretense and above all charlatanism When Professor O Leary died after a short illness in 1936 his personal effects passed through two generations to his grandson Dennis S O Leary who with his wife Margaret discovered his papers while restoring a family house The trove of material served as the core resource for the compilation of The English Professor It provides insights into the histories of Kansas and the University of Kansas and of Harvard University as well as perspectives on higher education including the teaching of English rhetoric language literature journalism and oratory in the United States South African national

bibliography ,1999 Classified list with author and title index **Taken For A Ride** Matteo Rizzo, 2017-05-19 How does public transport work in an African city under neoliberalism Who owns what in it Who has the power to influence its shape and changes in it over time What does it mean to be a precarious and informal worker in the private minibuses that provide public transport in Dar es Salaam These are the main questions that inform this in depth case study of Dar es Salaam s public transport system over more than forty years The growth of cities and informal economies are two central manifestations of globalization in the developing world Taken for a Ride addresses both drawing on long term fieldwork in Dar es Salaam Tanzania and charting its public transport system s journey from public to private provision This new addition to the Critical Frontiers of Theory Research and Practice in International Development Studies series investigates this shift alongside the

increasing deregulation of the sector and the resulting chaotic modality of public transport. It reviews state attempts to regain control over public transport and documents how informal wage relations prevailed in the sector. The changing political attitude of workers towards employers and the state is investigated from an initial incapacity to respond to exploitation to the political organisation and unionisation which won workers concessions on labour rights. A longitudinal study of workers throws light on patterns of occupational mobility in the sector and the political and economic interests that shaped the introduction of Bus Rapid Transit in Dar es Salaam and local resistance to it are analysed. *Taken for a Ride* reveals the political economy of public transport exposing the limitations of market fundamentalist and post colonial scholarship on economic informality, the urban experience in developing countries and the failure to locate the agency of the urban poor within their economic and political structures. It is both a contribution and a call for the contextualised study of actually existing neoliberalism.

Brexit and After Kumiko Haba, Martin Holland, 2020-12-12 This book makes a new departure from others on the subject. Not only does it analyze Brexit from the domestic point of view in the UK democracy, social analysis and construction of new institutionalization with the EU, it extends the analysis externally and reconsiders the EU and UK relationship with Asia and the implications for international relations and a new world order. From this foundation, this book presents a broad and diverse spectrum of views concerning Brexit and the EU. For these reasons, it serves as an original and excellent textbook for undergraduate and graduate students as well as for researchers of the EU and international relations. Contributions to this volume are from the European Union Studies Association (EUSA) Asia Pacific Tokyo Conference and affiliated conferences at the following universities between 2017-19: Aoyama Gakuin University Tokyo, Taiwan National University Taipei and Fudan University Shanghai. Almost all of the authors have engaged in interdisciplinary research on the EU, are members of the EUSA Asia Pacific and have made public presentations on Brexit and how it relates to the EU, Asia, international relations, economics and institutions. Therefore, this book presents various aspects of Brexit and its aftermath from the perspectives of the disciplines of political science, economics and international relations in its analysis of the UK, the EU, Asia and the future world order. The EUSA Presidents and executive committee members participated in the Asia Pacific Conference postgraduate student workshops were organized and their presentations moderated, thereby guaranteeing both the quality of the contributions to this book as well as encouraging young talented scholars to write about Brexit and the EU. While many books on Brexit have been published, this book offers many new perspectives that provide suggestions for possible solutions to the problems facing the UK and the EU after Brexit.

Xavier Olleros, Majlinda Zhegu, 2016-09-30 The digital transition of our economies is now entering a phase of broad and deep societal impact While there is one overall transition there are many different sectoral transformations from health and legal services to tax reports and taxi rides as well as a rising number of transversal trends and policy issues from widespread precarious employment and privacy concerns to market monopoly and cybercrime They all are fertile ground for researchers as established laws and regulations organizational structures business models value networks and workflow routines are contested and displaced by newer alternatives This Research Handbook offers a rich and interdisciplinary synthesis of some of the current thinking on the digital transformations underway
