Cash Not Care Mo Stewart, 2016-09-14 Mo Stewart is a former healthcare professional a disabled female veteran and an independent researcher This book is the culmination of six years of self funded research and the evidence exposes the influence of corporate America since 1992 with the future welfare reforms of the UK The impact of the enforced austerity measures of the UK government is identified as they negatively affect the welfare and the survival of the chronically sick and disabled population in receipt of welfare benefits when unfit to work The research has informed welfare reform debates in the House of Lords and the House of Commons since 2011 and contributed to the evidence used by the United Nations to investigate the UK government for breaches of the Human Rights of sick and disabled people Endorsed by the disabled community and by academics the research has identified the adoption of lethal social policies copied from American social security policies and linked to the death of thousands of the most vulnerable of all as the UK welfare state is systematically demolished as all planned over thirty years ago by a previous Conservative government

Youth Migration and the Politics of Wellbeing Elaine Chase, Jennifer Allsopp, 2020-11-18 This book examines the factors affecting the health and wellbeing of young people as they transition to adulthood under the shadow of migration control Drawing on unique longitudinal data it illuminates how they conceptualize wellbeing for themselves and others in contexts of prolonged and politically induced uncertainty The authors offer an in depth analysis of the experiences

of over one hundred unaccompanied young migrants primarily from Afghanistan Albania and Eritrea They show the lengths these young people will go to in pursuit of safety security and the futures they aspire to Interdisciplinary in nature the book champions a new political economy analysis of wellbeing in the context of migration and demonstrates the urgent need for policy reform *The Politics of Refugee Policy in the Global South* Ola G. El-Taliawi,2024-06-15 Mass refugee movements represent a complex policy problem to host governments as they challenge existing socio economic and political structures While scholarship on refugee migration tends to centre on the Global North most refugees actually reside in the Global South where the capacity to provide assistance is limited Shifting the focus from sensationalist rhetoric about mass migration to the North *The Politics of Refugee Policy in the Global South* provides a comparative analysis of Lebanon s and Jordan s responses to the Syrian refugee movement one of the largest displacements in modern history Through extensive interviews and process tracing Ola El Taliawi uncovers the complex realities of refugee hosting and the hard choices governments make in light of this challenge Building on the concept of complexity El Taliawi employs a unique methodology and analytical approach painting a nuanced picture of asylum provision and identifying a spectrum of refugee hosting models More than ever we need a better understanding of the unique politics of refugee policymaking in the Global South This incisive book offers key insights for effective governance and reform of the global refugee regime *Russia and the New World Disorder* Bobo Lo,2015-08-17 The Russian annexation of Crimea was one of the great strategic shocks of the past twenty five years For many in the West Moscow s actions in early 2014 marked the end of illusions about cooperation and the return to geopolitical and ideological confrontation Russia for so long a peripheral presence had become the central actor in a new global drama In this groundbreaking book renowned scholar Bobo Lo analyzes the broader context of the crisis by examining the interplay between Russian foreign policy and an increasingly anarchic international environment He argues that Moscow s approach to regional and global affairs reflects the tension between two very different worlds the perceptual and the actual The Kremlin highlights the decline of the West a resurgent Russia and the emergence of a new multipolar order But this idealized view is contradicted by a world disorder that challenges core assumptions about the dominance of great powers and the utility of military might Its lesson is that only those states that embrace change will prosper in the twenty first century A Russia able to redefine itself as a modern power would exert a critical influence in many areas of international politics But a Russia that rests on an outdated sense of entitlement may end up instead as one of the principal casualties of global transformation

supporting growing middle classes and creating sizable consumer markets Despite significant overall growth the continent continues to suffer under very rapid urban growth accompanied by massive urban poverty and many other social problems These seem to indicate that the development trajectories followed by African nations since post independence may not be able to deliver on the aspirations of broad based human development and prosperity for all This report therefore argues for a bold re imagining of prevailing models in order to steer the ongoing transitions towards greater sustainability based on a thorough review of all available options That is especially the case since the already daunting urban challenges in Africa are now being exacerbated by the new vulnerabilities and threats associated with climate and environmental change The State of African Cities, 2014 United Nations Human Settlements Programme,2013 Nairobi UN Habitat c2014
