Who Gets In? Rebecca Zwick, 2017-05-15 On the disputed topic of U S college admissions everyone agrees that this high stakes competition is unfair But few agree on what a fair process would be Stressing transparency in evaluating applicants Rebecca Zwick assesses the goals and criteria of different admissions policies and shows how they can fail to produce the desired results **The History of the Study of Landforms or the Development of Geomorphology, Volume 5** T.P. Burt, A.S. Goudie, H.A. Viles, 2022-10-20 Co published with British Society for Geomorphology This volume is the fifth in the definitive series The History of the Study of Landforms or the Development of Geomorphology Volume 1 1964 dealt with contributions to the field up to 1890 Volume 2 1973 with the concepts and contributions of William Morris Davis and Volume 3 1991 covered historical and regional themes during the classic period of geomorphology 1890 1950 Volume 4 2008 concentrated on studies of geomorphological processes and Quaternary geomorphology between 1890 and 1965 by the end of this period process based studies had become dominant Volume 5 builds on this platform covering in detail the revolutionary changes in approach that characterized the study of geomorphology in the second half of the twentieth century

It is divided into three sections the first deals with changes in approach and method the second with changes in ideas and the broader scientific context within which geomorphology is studied and the final section details advances in research on processes and landforms The volume s objective is to describe and analyse many of the developments that provide a foundation for the rich and varied subject matter of twenty first century geomorphology

The Performance of Africa's International Courts James Thuo Gathii,2020-11-26 The performance of international courts has traditionally been judged against criteria of compliance and effectiveness Whilst these are clearly desirable objectives for litigants before Africa s international courts this book shows that we must look beyond these criteria to fully appreciate the impact of these courts This book shows how litigants use their participation in international litigation to achieve other objectives to amplify political disputes with their governments to build their movement to educate the public about their cause and to challenge the status quo Chapters in this collection show how these courts act as coordination points for opposition political parties to name and shame dominant parties for violation of their organizational rights Others demonstrate how Africa s international courts serve as transitional justice mechanisms in which truth telling about ongoing conflict and authoritarian governance receives significant attention This attention serves as a platform to galvanize resistance against continued authoritarian rule especially from outside the conflict countries Ultimately the book shows that these courts must be judged against new and broader criteria and understood as increasingly important venues for waging political social environmental and legal struggles

The Meritocracy Trap Daniel Markovits,2020-09-08 A revolutionary new argument from eminent Yale Law professor Daniel Markovits attacking the false promise of meritocracy It is an axiom of American life that advantage should be earned through ability and effort Even as the country divides itself at every turn the meritocratic ideal that social and economic rewards should follow achievement rather than breeding reigns supreme Both Democrats and Republicans insistently repeat meritocratic notions Meritocracy cuts to the heart of who we are It sustains the American dream But what if both up and down the social ladder meritocracy is a sham Today meritocracy has become exactly what it was conceived to resist a mechanism for the concentration and dynastic transmission of wealth and privilege across generations Upward mobility has become a fantasy and the embattled middle classes are now more likely to sink into the working poor than to rise into the professional elite At the same time meritocracy now ensnares even those who manage to claw their way to the top requiring rich adults to work with crushing intensity exploiting their expensive educations in order to extract a return All this is not the result of deviations or retreats from meritocracy but rather stems directly from meritocracy s successes This is the radical argument that Daniel Markovits prosecutes with rare force Markovits is well placed to expose the sham of meritocracy Having spent his life at elite universities he knows from the inside the corrosive system we are trapped within Markovits also knows that if we understand that meritocratic inequality produces near universal harm we can cure it When The Meritocracy Trap reveals the inner workings of the meritocratic machine it also illuminates the first steps outward

towards a new world that might once again afford dignity and prosperity to the American people
