J. Kwok, Motoki Watabe, Sharon G.M. Koh, 2022-06-30 This book brings together valuable insights about the impact of the COVID-19 pandemic on the business environment from an Asian perspective. While some businesses in Asia have been swift to embrace the new normal, others have found the disruption to the traditional way of doing business challenging. Businesses are striving to respond, adapt and thrive under the shadow of the unprecedented upheaval to the business environment that has forced them to rethink their strategies, processes and operating models. There seems to be a consensus among business scholars and stakeholders that the continuous embrace of change and transformation of business models will assist businesses to sustain a long-term competitive advantage. The chapters in this book explore shifts in business innovation and strategies linked to the new normal of doing business during the pandemic, bringing to light issues, challenges and opportunities that firms can expect to face in their need to ensure sustainability post-pandemic and beyond. **Skills for Midwifery Practice Australian & New Zealand Edition** Sally-Ann De-Vitry Smith, Sara Bayes, 2022-02-28 This text provides clear, easy-to-read guidance on more than 110 skills for midwifery students and midwives seeking to update their practice. H. Godfrey, 2016-11-11 Hebrews is a sermon and a providentially sermon for our age This ancient text speaks to a Christ community descending into an abyss of ennui losing coordinates of faith and sliding through a back door or nonchalance With glimpses across the globe and through history this book attempts to extrapolate meaning for today from a sometimes difficult first century text **Higher Education in Ethiopia** Tebeje Molla, 2018-01-18 This book focuses on higher education in Ethiopia analysing persisting inequalities and policy responses against the backdrop of the extensive expansion and reform that the system has experienced in recent years Drawing on empirical data generated through interviews policy reviews and focus group discussions it explicates factors of structural inequality ranging from neoliberal policy orientations to repressive gender culture and geo political peripherality In a departure from conventional studies that consider policy a response to social problems the book takes a critical perspective to show the constitutive role of policy and explains how the representation of the problem of social inequality undermines equity policy outcomes in Ethiopian higher

education Not only does the book problematise the framing of the problem of inequality in the system it also outlines strategies for designing transformative equity instruments In explaining structural factors of inequality and equity provisions the book productively combines sociological concepts with historical accounts and political economy insights Given the increased economic optimism associated with higher education in sub Saharan Africa and the neoliberal ideals underpinning much of the restructuring of the system in the region this is a timely and important contribution that sheds light on the social justice implications and consequences of such changes It offers fresh accounts of largely neglected qualitative cases of inequality making it a valuable read for students and researchers in the areas of Ethiopian education policy studies international and comparative education and international development
