Mendez Villarrubia suggest that any interview even a mental status exam should be a helpful experience for the client They show how to embed a diagnostic interview in an ongoing clinical process and thus relate to and understand each client as unique even while finding the right diagnostic category for him or her This attunement to individuals also enables LaBruzza and Mendez Villarrubia to consider issues of cultural diversity Both authors have extensive experience working with Hispanic populations and have included an in depth chapter on assessing Hispanic clients In this new era of managed health care the demand for uniform accurate diagnoses has never been higher Facility with the DSM IV system is imperative But so too is a thoughtful understanding of clients Using DSM IV is the one resource that can help clinicians combine descriptive and dynamic orientations to clients to produce a truly comprehensive diagnosis As an explanatory and inclusive manual of DSM IV this is the essential book
