Congress. House. Committee on Financial Services. Subcommittee on Capital Markets and Government Sponsored Enterprises,2011 *Stabilizing China's Housing Market* Richard Koss,Xinrui Shi,2018-04-13

The sharp rise of house prices in China's Tier 1 cities has fostered a great deal of commentary about the possibility of bubbles forming there. However, China's unique housing market characteristics make it difficult to assess the macroeconomic severity of bursting bubbles even if they exist. These include the setting of land supply and prices by the government among many others. The presence of overbuilt ghost cities greatly complicates the ability of traditional macroeconomic policies to address these concerns. This paper looks at proposals to shore up the mortgage underwriting and legal infrastructure to help China withstand the impact of falling prices should this occur. *The Complete Idiot's Guide to Buying and Selling a Home* Shelley O'Hara,Nancy D. Unlike other books this covers both buying and selling which usually go hand in hand. Revised edition includes more information on buying a second home researching locations saving on costs and more. Existing home sales are setting new records every year.
