

1. The first step in the process is to identify the problem or issue that needs to be addressed. This involves gathering information and understanding the context of the situation.

2. The next step is to analyze the problem and identify the root causes. This involves breaking down the problem into smaller, more manageable components.

3. Once the root causes are identified, the next step is to develop a plan of action. This involves determining the steps that need to be taken to address the problem.

4. The final step is to implement the plan and monitor the results. This involves putting the plan into action and tracking progress to ensure that the problem is being effectively addressed.
