## ABSTRACT

AI on social media has revolutionized communication and engagement by personalizing content and suggesting products. It also detects harmful content and assists users with chatbots. However, concerns about privacy, data security, and misinformation propagation remain. Balancing these challenges is essential for a positive online environment.

Arens, 2014 This report quantifies for the first time the greenhouse gas GHG emissions co benefits associated with water waste and transportation usage in certified green commercial office buildings in California The study compares the measured values of water waste and transportation usage self reported by a set of office buildings certified under the Leadership in Energy and Environmental Design rating system for Existing Building Operations and Maintenance LEED EBOM to both baseline values of conventional California office buildings and predicted values based upon state standards for green buildings and GHG impact prediction methods The green buildings in the LEED EBOM dataset produced 50% less GHGs due to water consumption than baseline buildings 48% less due to solid waste management and 5% less due to transportation If applied to the entire California office building stock performance typical of the certified green buildings would save 0.703 MMTCO<sub>2</sub>e/yr from transportation 0.084 MMTCO<sub>2</sub>e/yr from water and 0.044 MMTCO<sub>2</sub>e/yr from waste for a total potential savings of about 0.831 MMTCO<sub>2</sub>e/yr relative to conventional construction In addition buildings earning additional credits for specified performance thresholds for water and waste in the LEED EBOM code attained performance levels even higher than required by the code provisions suggesting that such code provisions in other contexts may help incentivize larger GHG emissions reductions than anticipated United States Code United States, 2013 The United States Code is the official codification of the general and permanent laws of the United States of America The Code was first published in 1926 and a

new edition of the code has been published every six years since 1934 The 2012 edition of the Code incorporates laws enacted through the One Hundred Twelfth Congress Second Session the last of which was signed by the President on January 15 2013 It does not include laws of the One Hundred Thirteenth Congress First Session enacted between January 2 2013 the date it convened and January 15 2013 By statutory authority this edition may be cited U S C 2012 ed As adopted in 1926 the Code established prima facie the general and permanent laws of the United States The underlying statutes reprinted in the Code remained in effect and controlled over the Code in case of any discrepancy In 1947 Congress began enacting individual titles of the Code into positive law When a title is enacted into positive law the underlying statutes are repealed and the title then becomes legal evidence of the law Currently 26 of the 51 titles in the Code have been so enacted These are identified in the table of titles near the beginning of each volume The Law Revision Counsel of the House of Representatives continues to prepare legislation pursuant to 2 U S C 285b to enact the remainder of the Code on a title by title basis into positive law The 2012 edition of the Code was prepared and published under the supervision of Ralph V Seep Law Revision Counsel Grateful acknowledgment is made of the contributions by all who helped in this work particularly the staffs of the Office of the Law Revision Counsel and the Government Printing Office Preface
