The Decline of America David D. Schein, 2018-02-13 The Decline of America offers a carefully documented analysis of the last seventeen U S presidents These men eight Democrats and nine Republicans have shaped the last 100 years not only for America but for the world Each president is profiled with unsparing scrutiny so we can see where it s all gone wrong David Schein follows these critiques by proposing ways to improve America s outlook for the next 100 years before it s too late

Capital and the Common Good Georgia Levenson Keohane, 2016-09-27 Despite social and economic advances around the world poverty and disease persist exacerbated by the mounting challenges of climate change natural disasters political conflict mass migration and economic inequality While governments commit to addressing these challenges traditional public and philanthropic dollars are not enough Here innovative finance has shown a way forward by borrowing techniques from the world of finance we can raise capital for social investments today Innovative finance has provided polio vaccines to children in the DRC crop insurance to farmers in India pay as you go solar electricity to Kenyans and affordable housing and transportation to New Yorkers It has helped governmental commercial and philanthropic resources meet the needs of the poor and underserved and build a more sustainable and inclusive prosperity Capital and the Common Good shows how market failure in one context can be solved with market solutions from another an expert in securitization bundles future development aid into bonds to pay for vaccines today an entrepreneur turns a mobile phone into an array of financial services for the unbanked and policy makers adapt pay for success models from the world of infrastructure to human services like early childhood education maternal health and job training Revisiting the successes and missteps of these efforts Georgia Levenson Keohane argues that innovative finance is as much about incentives and sound decision making as it is about money When it works innovative finance gives us the tools motivation and security to invest in our shared future

The Russian State and Russian Energy Companies, 1992-2018 Ingerid M. Opdahl, 2020-06-09 The Russian State and Russian Energy Companies analyses the development of relations between the state and five major energy companies and how this shaped Russia's foreign policy in the post Soviet region The book argues that the development of Russia's political economy mattered for foreign policy over the quarter of a century from 1992 to 2018 Energy companies roles in institutional development enabled them to influence foreign policy formation and they became available as tools to implement foreign policy The extent to which it happened for each company varied with their accessibility to the Russian state Institutional development increased state capacity in a way that strengthened Russia's political regime The book shows how the combined power of several companies in the gas oil electricity and nuclear energy industry was a key feature of Russian foreign policy both in bilateral relationships and in support of Russia's regional position In this way Russia's energy resources were converted to regional influence The book contributes to our understanding of Russia's political economy and its influence on foreign policy and of the formation of policy towards post Soviet states
