they called *rust en orde* or peace and order on the Indonesian people via the suppression of politics by the police. The political policing regime the Dutch Indies state created Takashi Shiraishi shows was simultaneously a success and a failure. While unrest was to some degree put down the native terrain was never completely pacified as activists linked up with each other in fluid networks that cut across spatial and ideational boundaries. How did the government deploy political policing to achieve its policy objectives? What were the consequences and challenges for Indonesian activists? How was the government able to fashion its policing apparatus as the most potent instrument to achieve peace and order when the Great Depression hit the Indies, nationalist and communist forces were gaining strength in other places of the world and war was coming both in Europe and Asia? This book answers those questions and more, breaking new ground for our understanding of the history of the Dutch Indies state in the early part of the twentieth century.

World Heritage Sites and Indigenous Peoples' Rights

The book will serve as a resource for indigenous peoples, World Heritage site managers and UNESCO as well as academics and it will contribute to discussions about what changes or actions are needed to ensure that World Heritage sites can play a consistently positive role for indigenous peoples in line with the spirit of the United Nations Declaration on the Rights of Indigenous Peoples.
