

Hazel takes out a piece of paper, walks up to the dais. Takes a beat to ready herself.

103.

HAZEL

"Augustus Waters was the great star-crossed love of my life. Ours was an epic love story, and I won't be able to get more than a sentence into it without disappearing into a puddle of tears.

(beat)

Like all real love stories - ours will die with us, as it should. I'd hoped that he'd be eulogizing me, because there's no one I'd rather have...."

And that's all she can get out before falling apart. She lets it out for a couple beats and then pulls herself together.

HAZEL

(beat, composing herself)

"I can't talk about our love story so instead I will talk about math. I am not a mathematician, but I know this: there are infinite numbers between 0 and 1. There's .1 And .12 And .112 And an infinite collection of others. Of course, there is a bigger infinite set of numbers between 0 and 2, or between 0 and a million. Some infinities are bigger than other infinities. A writer we used to like taught us that. I want more numbers than I'm likely to get, and God, I want more numbers for Augustus Waters than he got. But, Gus, my love, I cannot tell you how thankful I am for our little infinity. You gave me a forever within the numbered days, and for that I am eternally grateful. I love you."

Gus smiles, nods, and closes his eyes. CUT TO:

BLACK.

Over which we hear a RINGING TELEPHONE.

INT HAZEL'S BEDROOM - NIGHT

Hazel turns on the LIGHT by her bed. Her HOUSE PHONE is ringing and it's 4am.

She knows instantly.

Monologues From The Fault In Our Stars:

Soliloquy! William Shakespeare, 1988 A collection of all of Shakespeare's greatest soliloquies monologues and set speeches classified for use by the general reader or working actor with notes and performance commentary *Dialogues & Monologues* Humbert Wolfe, 1929 Classical Monologues from Aeschylus to Bernard Shaw Leon Katz, 2002 **Comedy Monologues for Adult Actors** Larry Hillhouse, 1996 **Presidential Debates : The Challenge of Creating an Informed Electorate** The Annenberg School for Communication University of Pennsylvania Kathleen Hall Jamieson Dean, Department of Speech Baruch College David S. Birdsell Assistant Professor, City University of New York, 1988-10-13 Presidential debates have had mixed reviews Advocates praise debates as a way of making issues more central to the campaign Others criticize them as little more than joint press conferences How important are these debates Do they really test knowledge and vision Do they sort good ideas from bad or reveal important character traits and habits of mind In short do they provide voters with what they need to know to choose a president To address these questions the authors place contemporary debates in their cultural and historical context tracing their origins and development in the American political tradition from the eighteenth century to the present Although the Kennedy Nixon TV confrontations were an historical first debate was an element of American electoral politics by 1788 and a staple of policy deliberation throughout the colonial period Indeed much of the confusion over the value of debates stems in part from the long tradition of political debating in America Thus to make the most productive use of debate in modern presidential politics the authors argue we must respond to the history of this tradition The book concludes with recommendations to preserve the best elements of traditional debate while adapting to the requirements of the broadcast age The reforms they advocate include substantive debates between major party representatives between elections alternative formats use of visual aids in debates follow up press conferences a focus on fewer issues and increased experimentation in the primaries Presidential debates provide voters with a rare opportunity to evaluate political reasoning on complex issues In suggesting ways to make presidential debates even more effective this thought provoking volume makes an important contribution to America's political future *Presidential Debates* Kathleen Hall Jamieson, David S. Birdsell, 1990-08 How important are presidential debates today To answer this question the authors place modern debates in their cultural and historical context tracing their origins and development in the American political tradition from the eighteenth century to the present and concluding with some thoughtful suggestions for improving their current effectiveness The Despot's Apprentice Brian Klaas, 2017 Donald Trump isn't a despot But he is increasingly acting like a despot's apprentice Whether it's attacking the press threatening the rule of law or staffing the White House with family members and cronies Trump is borrowing moves from the world's dictators The president's bizarre adoration of global strongmen has also transformed US foreign policy into a powerful force cheerleading some of the world's worst regimes An expert on authoritarianism Brian Klaas is well placed to recognise the warning signs of tyranny He argues

forcefully that with every autocratic tactic or tweet Trump further erodes democratic norms in the world's most powerful democracy. *The Despot's Apprentice* is an urgent exploration of the unique threat that Trump poses to global democracy and how to save it from him before it's too late. **By Any Media Necessary** Henry Jenkins, Sangita Shresthova, Liana Gamber-Thompson, Neta Kligler-Vilenchik, Arely Zimmerman, 2016-05-03 The participatory politics and civic engagement of youth in the digital age. There is a widespread perception that the foundations of American democracy are dysfunctional: public trust in core institutions is eroding and little is likely to emerge from traditional politics that will shift those conditions. Youth are often seen as emblematic of this crisis, frequently represented as uninterested in political life, ill informed about current affairs and unwilling to register and vote. *By Any Media Necessary* offers a profoundly different picture of contemporary American youth. Young men and women are tapping into the potential of new forms of communication such as social media platforms, spreadable videos and memes, remixing the language of popular culture and seeking to bring about political change by any media necessary. In a series of case studies covering a diverse range of organizations, networks and movements involving young people in the political process, from the Harry Potter Alliance which fights for human rights in the name of the popular fantasy franchise to immigration rights advocates using superheroes to dramatize their struggles, *By Any Media Necessary* examines the civic imagination at work. Before the world can change, people need the ability to imagine what alternatives might look like and identify paths by which change can be achieved. Exploring new forms of political activities and identities emerging from the practice of participatory culture, *By Any Media Necessary* reveals how these shifts in communication have unleashed a new political dynamism in American youth.
