Statistical and Methodological Myths and Urban Legends in Strategic Management Research Ming Li, Barton Sharp, Donald D. Bergh, Robert Vandenberg, 2019 This paper examines whether methodological precedence in applying moderation analysis to strategic management research relies on myths and urban legends and if doing so affected empirical conclusions implications for theory development and practical recommendations An in depth analysis of 69 studies published in the Strategic Management Journal between 2000 and 2014 using moderation analysis finds that strategic management scholars typically rely on statistical myths and urban legends when applying moderation analysis including 1 interpreting main effects separately from their significant interaction with other variables 2 failing to report reliability values of interaction terms and 3 relying on hierarchical approaches that can lead to interpretation errors Further examples illustrate how these practices could lead researchers to draw incomplete and possibly inaccurate conclusions Overall problematic precedents have become the gold standards for testing and interpreting moderation models Best practice recommendations for redirecting future research to more solid methodological grounding are provided

and Management Studies Dr Martin Rich, Dr Anne Brown, 2014-06-16 *The Many Selves in Social Structures - Applications to Corporate Strategy, Work-Life Dynamics, and Cross-Class Interactions* Alejandro Hermida Carrillo, 2024-08-23

How do identities shape and react to the socio economic landscape I draw from paradigms in cultural anthropology organizational behavior and sociology to dissect how distinct elements of individual identity inform and transform social interactions within corporate work life and social class structures In my first study I provide evidence for the role of similarity and dissimilarity in visual e g age gender and psychological i e personality attributes among CEOs on strategic imitation following underperformance In the second project I examine how romantic couples joint preferences for integration or segmentation of their work and home spheres influence their domestic harmony zooming into the context of remote work In the final project I explore how social class disparities among conversation partners influence the amount and type of information about the self conveyed during the interaction I address my projects by combining analytical strategies designed for the study of similarities and differences e g spline regression and response surface analysis with techniques aimed to capture the complexity of individual identity e g surveys archival data and natural language processing My research bridges theoretical and methodological paradigms in the social sciences underscoring the multiplicity of the self as a critical nexus for interdisciplinary dialogue

Leading Issues in Business and Management Research, Volume 2 Susan Geringer and John Mendy, 2015 Research Methodology remains a vital issue at the heart of all scholarly activity Without a proper appreciation of Research Methodology and its correct application academic progress is not possible One of the problems which Research Methodology offers the learner is the very wide range of options which are frequently available with which to answer a research question and this high level of choice can lead to indecision and sometimes confusion This book is a compilation of a number of important papers on this subject selected by two leaders in this field of study A wide range of topic have been chosen which lead the reader through some of the more important considerations in the field The book is designed to help with this type of problem and the the current selection of papers which highlight a variety of research questions problems and issues and an accompanying range of research methods and methodological discussions Their authors have stated the research positions they have adopted and respective levels of justification and knowledge forms have been presented These range from those forms of knowledge that might be found of use to practitioners to those that are more philosophically or academically inclined A certain level of research impact is either implied or overtly presented in the selected papers This book is an important text for academics researchers and students as well as those interested in using research from a commercial point of view

Future Studies Research Methodology Zahra Naimie, Saedah Siraj, Norasmatul Akma Ahmad, 2018 The Psychologist, 2008 **Journal of Studies on Alcohol and Drugs**, 2009-07 Linguistics and Language Behavior Abstracts, 2006-10 *The Geographical Magazine* Michael Huxley, 1983 Vols for 19 include a separate section called GM news and reviews *Index to Theses with Abstracts Accepted for Higher Degrees by the Universities of Great Britain and Ireland and the Council for National Academic Awards*, 2008 Theses on any subject submitted by the academic libraries in the UK and Ireland Urban Myths & Legends Albert Jack, 2016-02-03 The subject of urban myths and legends is one I have been interested in for a couple of years now It occurred to me one day at lunch with friends on the Isle of Dogs that many long rambling conversations and ours are certainly long and always rambling will include a tall tale or two One person will then be reminded of a story he or she once heard which is then presented as near or actual fact The story will be introduced like this That reminds me of a story I once heard or I remember my uncle aunt sister hairdresser telling me what happened to a friend of theirs So urban legends are easy to spot and always have a ring of truth about them The events they describe could happen or might have happened to any of us Each of us could have been as unfortunate or stupid as the character s in the story and that is one of the reasons we all enjoy urban legends so much that the misfortune involved didn t happen to us but to somebody else And that makes us laugh The stories come in many different forms Some involve ghostly goings on some are about love found or lost Some centre on plain stupidity and some on unfortunate coincidences although some do have happy endings The connecting feature is that all are told and then retold and come back around in altered forms and all of them are passed around by word of mouth or especially these days via the internet where they spread like wildfire These legends so called urban although they don t need to have an urban setting are the modern day version of medieval folklore and all of the anecdotes in this collection can be recited the next time you are at lunch dinner or in the pub with friends They can make even the most unimaginative person seem interesting I promise They seem to be working for me at any rate I should point out here that many of the tales told in this collection are probably not true and that any names given apart from when they are used to back up evidence in genuine accounts are made up by me So for example if there really is a Peter Patsalides who worked at the World Trade Centre in New York prior to 11 September 2001 see Caught with his Trousers Down then I am not suggesting he was having an affair because that is also the name of a friend of mine the one who told me the story in the first place So please don t sue and leave me penniless if your marriage collapses as a result of something I have written I am sure many of the stories included must be untrue despite their ring of truth but that is part of the fun of urban legends any one of them could be true and it is up to us to decide for ourselves what to believe and what not to Some well known urban legends are bound to be missing from this book but they may well pop up in a second volume if this one proves to be popular It is only meant to be a little bit of fun and perhaps to provoke some thought and conversation Anything that does that must be a good thing and also reading this book and reciting a few of the tales might make you more popular

you never know Albert Jack *Urban Legends Uncovered* Mark Barber,2007 From campfire classics that send shivers down the spine to the paranoia that followed the events of 9 11 this compelling book relates and then investigates the origins of urban myths **Urban Legends** Richard Roeper,2001 Offers the truth about a variety of urban legends that have been circulated on the Internet by the media and around offices *Statistical Tricks and Traps* Ennis C.
