Heritage James Alexander Howard, 1980 **The New York Times Index**, 2007 **How Autocrats Subvert Elections** Richard L. Abel, 2025-06-27 Chronicling and analyzing resistance to the threat that autocracy poses to American liberal democracy this book provides the definitive account of the response to the January 6 2021 assault on the Capitol and Republican efforts to overturn the 2020 election and bias future elections in their favor In December 2020 Donald Trump invited supporters to DC for what he promised would be a wild demonstration against Biden s victory On January 6 2021 he directed the mob he had summoned to march on the Capitol where it ransacked the building caused five deaths and hundreds of injuries and delayed but failed to prevent certification of the election Although some Congressional Republicans briefly distanced themselves from Trump the party quickly closed ranks around him The business community similarly initially expressed criticism but soon resumed campaign contributions to Republicans Democrats sought to impeach Trump for the second time but Republicans blocked conviction Democrats created a House Select Committee which exposed Trump s complicity through dramatic televised hearings and a comprehensive report Republicans responded by denying there had been a riot one calling it a mere tourist visit and sanctifying those arrested Nevertheless all but two of the nearly 1 400 charged were convicted Judges appointed by both Democratic and Republican presidents harshly condemned the insurrectionists imposing sentences that did not vary by the judge s party preference This book contextualizes these continuing threats to American democracy through an opening chapter exposing distressing parallels with the rise of Nazism in 1930s Germany The penultimate chapter examines the ways in which Republicans persisted in seeking to overturn the 2020 election and distort subsequent elections by gerrymandering and creating obstructions to potential Democratic voters All the chapters focus on the multiple forms of resistance politics social action economic pressure media exposure and criminal prosecution evaluating their relative efficacy and comparing them with modes of resistance analyzed in the author s
