Julian Pitt Rivers Honour:

Honor and Grace in Anthropology John George Peristiany, J. G. Peristiany, Julian Pitt-Rivers, 2005-02-17 This collection of essays develops a line of thought in anthropology which was opened in the 1960s by the editors and some of the same contributors in *Honor and Shame The Values of a Mediterranean Society* The essays half of them historical and half contemporary deal with different aspects of honour and grace and the strategies and transactions by which they can be obtained

By Honor Bound Nancy Shields Kollmann, 1999 In the sixteenth and seventeenth centuries Russians from all ranks of society were bound together by a culture of honor Here one of the foremost scholars of early modern Russia explores the intricate and highly stylized codes that made up this culture Nancy Shields Kollmann describes how these codes were manipulated to construct identity and enforce social norms and also to defend against insults to pursue vendettas and to unsettle communities She offers evidence for a new view of the relationship of state and society in the Russian empire and her richly comparative approach enhances knowledge of statebuilding in premodern Europe By presenting Muscovite state and society in the context of medieval and early modern Europe she exposes similarities that blur long standing distinctions between Russian and European history Through the prism of honor Kollmann examines the interaction of the Russian state and its people in regulating social relations and defining an individual's rank She finds vital information in a collection of transcripts of legal suits brought by elites and peasants alike to avenge insult to honor The cases make clear the conservative role honor played in society as well as the ability of men and women to employ this body of ideas to address their relations with one another and with the state Kollmann demonstrates that the grand princes and later the tsars tolerated a surprising degree of local autonomy throughout their rapidly expanding realm Her work marks a stark contrast with traditional Russian historiography which exaggerates the power of the state and downplays the volition of society

Defending God's Honor Javier Villa Flores, 2001 **We Shall All be Changed** James H. Evans, 1997 Wisdom health honor hope these revered ideals are now jeopardized James Evans claims by the towering social problems of North American society nowhere more achingly and emblematically than in African American life Evans here creates a practical theology by working at the intersection of religious understandings in the African American community and its most pressing social problems He skillfully probes to their deepest cultural and religious roots There the moral distortions of racism poverty shame disease dysfunctional families and even problematic elements in religious life can be excised so that new more helpful ideas of grace salvation and community can flourish Evans's fresh and fruitful work is an affirmation of the transformative power of religious engagement and its ultimate source in the religious community that is God's own self *From Hospitality to Grace* Julian Pitt-Rivers, 2017-12-15 The Pitt Rivers Omnibus brings together the definitive essays and lectures of the influential social anthropologist Julian A Pitt Rivers a corpus of work that has until now remained scattered untranslated and unedited Illuminating the themes and topics that he engaged throughout his life including hospitality grace the symbolic economy of reciprocity kinship the paradoxes of friendship ritual logics the anthropology of dress and more this omnibus brings his reflections to new life Holding Pitt Rivers's diversity of subjects and ethnographic foci in the same gaze this book reveals a theoretical unity that ran through his work and highlights his iconic wit and brilliance Striking at the heart of anthropological theory the pieces here explore the relationship between the mental and the material between what is thought and what is done Classic definitive and yet still extraordinarily relevant for contemporary anthropology Pitt Rivers's lifetime contribution will provide a new generation of anthropologists with an invaluable resource for reflection on both ethnographic and theoretical issues The Legal Protection of Reputation and the Tests for what is Defamatory Lawrence

McNamara, 2005 **That Damn'd Thing Called Honour** James Kelly, 1995 undoubtedly the best book ever written on the subject Bill Power The Examiner **Social Practice and Political Culture in the Turkish Republic** Michael E. Meeker, 2004 **Denver journal of international law and policy**, 2002 **The Code of Honor in Western Culture** Thomas J. Steele, 1998 *Adventuring Through Spanish Colonies* Matthew Brown, 2006 Between 1810 and 1825 nearly 7 000 British and Irish mercenaries sailed to Gran Colombia to fight against Spanish colonial rule under the rebel forces of Simon Bolivar Their motives were mixed Some travelled for money others travelled for honour Adventuring through Spanish

Colonics explores the lives of these men their encounters with other soldiers indigenous people local women and slaves as recounted in documents that fall outside the usual remit of military political and economic history Matthew Brown considers the social and cultural aspects of the presence of these foreigners and shows how they were an essential part of the revolution which eventually gave South America its freedom Using archival research from England Scotland Ireland Spain Ecuador Venezuela and Colombia *Adventuring through Spanish Colonies* clearly shows the active role that these mercenaries informal outriders of the British Empire played in the creation of Latin America as we know it today *The Theatrical Self*

Michael John Macrone,1991 **Violence and Vengeance in Middle Welsh and Middle English Narrative** Michael Staveley Cichon,2009 This study examines the presence and extent of legal and feud elements in the Middle Welsh Owein and the Middle English Ywain and Gawain The process of feud and the concern for honor along with the sentiment of reciprocity and exchange which inform them are so integral to the cultures which produced Owein and Ywain and Gawain that familiarity with this mentalite is essential to fully appreciate and understand the literature A ribbon of insult and redress runs through each romance the process of fall and redemption the education or re education of the hero present in these romances is informed by notions of insult and redress which characterize societies that feud The Welsh were a feuding people and the text has direct legal references Feud provides a rationale for adventures easily understood by a contemporary audience because that audience itself practiced the behaviors depicted in the literature or at least understood the sentiment which encouraged them This work will appeal to scholars of medieval literature medieval history and the history of violence in the British Isles **War, Justice, and Public Order** Richard W. Kaeuper,1988 This is a study of two topics of central importance in late medieval history the impact of war and the control of disorder Making war and making law were the twin goals of the state and the author examines the effect of the evolution of royal government in England and France Ranging broadly between 1000 and 1400 he focuses principally on the period c 1290 to c 1360 and compares developments in the two countries in four related areas the economic and political costs of war the development of royal justice the crown s attempt to control private violence and the relationship between public opinion and government action He argues that as France suffered near breakdown under repeated English invasions the authority of the crown became more acceptable to the internal warring factions whereas the English monarchy unable to meet the expectations for internal order which arose partly from its own ambitious claims to be keeper of the peace had to devolve much of its judicial powers In these linked problems of war justice and public order may lie the origins of English constitutionalism and French absolutism

Patronage in Sixteenth- and Seventeenth-century France Sharon Kettering,2002 The dual themes of this volume are the characteristics of patronage relationships and their political uses in early modern France The first essays provide an overview of the scholarly literature and suggest that the obligatory reciprocity of the patron client exchange was a defining characteristic The third and fourth essays compare patronage relationships with kinship and friendship while the following

two focus on the patronage role of noblewomen Professor Kettering then looks at the role of brokerage in state formation in early modern France comparing this with other early modern societies In the final section she explores the role of patronage in the religious wars of the late 16th century and in the civil war of the Fronde a half century later and the ways in which it was affected by the changing lifestyles of the great nobles during the late 17th century **Njegoš's Montenegro** Zdenko Zlatar, 2005 Montenegro's transition from a tribal to a civil society is the subject of Zdenko Zlatar's newest work His study is both about a country and a ruler who typified Montenegro Zlatar compares Negos's standing in Montenegro to tribal leaders in other parts of the world
