reveal the joy meaning and purpose grandparents find in caregiving the challenges and frustrations they encounter and the many ways they compromise their own health and well being for the sake of their grandchildren Drawing from theories of cumulative inequality and from their deep knowledge of the US policy context the authors lay bare the systemic failures that leave families of children with disabilities without adequate support and that place the most vulnerable among them at grave physical emotional and financial risk Jane McLeod Provost Professor Indiana University Grandparents in the U S already take on far more parenting responsibilities as compared to their peers in other countries Grandparenting Children with Disabilities demonstrates that the intensity of these responsibilities is compounded for those whose grandchildren have disabilities given limited policy supports and a society still largely unaccommodating to those with disabilities This book beautifully navigates the tension between the love these grandparents have for their grandchildren and the challenges they face caring for them Pamela Herd Professor Georgetown University Grandparenting Children with Disabilities offers important insights about the lived experience of older adults who care for and care about their grandchildren The authors skillfully integrate the stories they tell with consideration of macro social structural influences and life course perspectives I recommend it highly Eva Kahana Distinguished University Professor Case Western Reserve [El-Hi Textbooks & Serials in Print](#) Bowker Editorial Staff,2004-02 [Math Trailblazers](#) ,1997 **Math Trailblazers 2E G4 Teacher Implementation Guide** ,2003 A research based NSF funded K5 mathematics program integrating math science and language arts Includes a Spanish translation of instructional units **Figuring Out Fluency in Mathematics Teaching and Learning, Grades K-8** Jennifer M.
