South African national bibliography ,1999 Classified list with author and title index      *Engineering Design and Mathematical Modelling* Nnamdi Nwulu,Mammo Muchie,2020-12-17 Engineering Design and Mathematical Modelling Concepts and Applications consists of chapters that span the Engineering design and mathematical modelling domains Engineering design and mathematical modelling are key tools techniques in the Science Technology and Innovation spheres Whilst engineering design is concerned with the creation of functional innovative products and processes mathematical modelling seeks to utilize mathematical principles and concepts to describe and control real world phenomena Both of these can be useful tools for spurring and hastening progress in developing countries They are also areas where Africa needs to skill up in order to build a technological base The chapters in this book cover the relevant research trends in the fields of both engineering design and mathematical modelling This book was originally published as a special issue of the African Journal of Science Technology Innovation and Development      **Index of Conference Proceedings** British Library. Document Supply Centre,2002      **This Week in South Africa** ,1995      **Understanding African Real Estate Markets** Aly Karam,François Viruly,Catherine Kariuki,Victor Akujuru,2022-04-28 This book brings together a broad range of research that interrogates how real estate market analysis finance planning and investment for residential and commercial developments across the African continent are undertaken In the past two decades African real estate markets have rapidly matured creating the conditions for new investment opportunities which has increased the demand for a deeper understanding of the commercial and residential markets across the continent The chapters consider issues that pertain to formal real estate markets and the critical relationship between formal and informal property markets on the continent With contributing authors from South Africa Ghana Nigeria Uganda Kenya and Tanzania the book considers the achievements of African real estate markets while also highlighting the complex central themes such as underdeveloped land tenure arrangements the availability of finance in both the commercial and residential sectors rapidly growing urban areas and inadequate professional skills This book is essential reading for students in real estate land management planning finance development and economics programs who need to understand the nuances of markets in the African context Investors and policy makers will learn a lot reading this book too      Interpellations, Questions and Replies of the National Assembly South Africa. Parliament (1994- ). National Assembly,1997      **Stopping the Spies** Jane Duncan,2018-06-01 Is South Africa on its way to becoming a surveillance state and will it need a whistleblower In 2013 former National Security Agency NSA contractor Edward Snowden leaked secret documents revealing that state agencies like the NSA had spied on the communications of millions of innocent citizens International outrage resulted but the Snowden documents revealed only the tip of the surveillance iceberg Apart from insisting on their rights to tap into communications more and more states are placing citizens under surveillance tracking their movements and transactions with public and private institutions The state

is becoming like a one way mirror where it can see more of what its citizens do and say while citizens see less and less of what the state does owing to high levels of secrecy around surveillance In this book Jane Duncan assesses the relevance of Snowden s revelations for South Africa In doing so she questions the extent to which South Africa is becoming a surveillance society governed by a surveillance state Duncan challenges members of civil society to be concerned about and to act on the ever expanding surveillance capacities of the South African state Is surveillance used for the democratic purpose of making people safer or is it being used for the repressive purpose of social control especially of those considered to be politically threatening to ruling interests She explores the forms of collective action needed to ensure that unaccountable surveillance does not take place and examines what does and does not work when it comes to developing organised responses

The Emperor's New Computer ,2019-02-11 c ICT s subtle and seductive impact on educational administration globalisation curriculum design development and delivery and teacher roles and responsibilities has challenged the privileged notion of how education in society is or should be delivered Most schools and curricula require ICT enabled or supported courses as part of their mission or design Yet the seeming ubiquitous adoption of ICT has not made the technology s use any less controversial There is much that is still puzzling and troubling about Information and Communication Technology and its impact on teachers and learners The Emperor s New Computer ICT Teaching and Learning presents nine chapters that reflect international points of view on the intersection of Information and Communication Technology and education pose critical questions about ICT s use and examine ways of navigating the complex paths that ICT has carved in all aspects of global education society and culture
