critical role Some children such as those with autism may create an inner world around a struggle or a story of struggle Through the stories they choose we may hear or see a glimpse into their world and learn how to move closer to support them The emotional stability nurtured by caring adults in their lives allows children the freedom and energy they deserve to be able to concentrate engage learn follow through and enjoy the world that is out there for them to explore When families are a part of the Storybook Journey process children experience the enriching and vital daily life extensions of the stories beyond the classroom The Storybook Journey is neither a unit plan detached from the lives of children nor a series of recipes developed by adults Its uniqueness lies in its intention to give teachers enough content and inspiration that their own creativity and enjoyment of the Storybook Journey process will carry them the children and the children s families to new and interesting avenues of learning
