

- indep – independent
- awrt – answer which rounds to
- eeo – each error or omission

- **No working**

If no working is shown, then correct answers normally score full marks.

If no working is shown, then incorrect (even though nearly correct) answers score no marks.

- **With working**

If there is a wrong answer indicated on the answer line always check the working in the body of the script (and on any diagrams) and award any marks appropriate from the mark scheme.

If it is clear from the working that the “correct” answer has been obtained from incorrect working, award 0 marks.

If a candidate misreads a number from the question. E.g. Uses 252 instead of 255; method marks may be awarded provided the question has not been simplified. Examiners should send any instance of a suspected

misread to the marker. If there is a suspicion of method marks, mark the method that leads to the answer on the answer line, unless the answer is given on the answer line, award the method marks from the method shown. If there is no answer on the answer line, then check the working for an obvious answer.

- **Parts of questions**

Unless stated by the mark scheme, the marks attached to one part of the question cannot be awarded in isolation.
