**English Language Learners in the Southeastern United States** Ester J. de Jong, Eric Dwyer, Mary Elizabeth Wilson-Patton, 2024-07-25 This book examines the

impact of and response to the rapidly growing English language learner ELL populations in the southeastern United States on K 16 schooling Using examples of policy and practice from seven states Alabama Arkansas Florida Georgia North Carolina and Tennessee the book explores how the contemporary context of accountability regimes and neoliberal tenets affect educational responses to the increased linguistic and cultural diversity in schools and how these realities may be different from when traditional states such as California or Florida were developing their responses to immigration The collection of chapters addresses key questions of teacher preparation effective infrastructures and frameworks for serving ELLs dual language bilingual education and advocacy efforts at the state district and local level in the Southeast The authors describe promising practices in each state but also note the need for more systemic statewide approaches that resist the enduring monolingual discourse that has historically characterized much of ELL schooling They call for transformative policies and practices that take current research into account and that stress the centrality of pluralistic principles to design effective schools for ELLs

**A Political Economy of Arab Education** Mohamed Alaa Abdel-Moneim, 2015-09-07 The failure of reform policies in areas of critical importance to Arab populations such as health and education played a central role in igniting the Arab Awakening yet this policy perspective has been largely absent from recent studies of the region Arab regimes most reliant on repression to guarantee their survival were also those most vulnerable to mass politics Where threats to regime survival have been limited so have more meaningful reforms been possible finding an alternative to political change through focusing on soft policy areas such as education A Political Economy of Arab Education offers a comprehensive analysis of K 12 education systems in Arab countries deepening understanding of their administrative structures and outcomes and exploring how political considerations have impacted the ability of Arab regimes to engage in meaningful reform Taking a unique comparative political economy perspective it examines the reasons behind policy stagnation in Arab countries addressing the effects of size history and political stability on the design and implementation of policies and administrative structures Its informed analysis and comparison of education systems provides new insight into Arab regimes and highlights factors pulling them towards either stagnation or reform Examining the sustainability of reforms and establishing the benefits of engaging in meaningful change this book sheds light on why some regimes survived the Arab Spring while others crumbled and formulates convincing predictions on the potential for future regime change in the region This book will be of key interest to students and scholars of Middle Eastern Studies International and Comparative Education and Development Studies
